

**Anexo W. Porcentaje de horas de desconfort para combinación de materiales para casa 1**

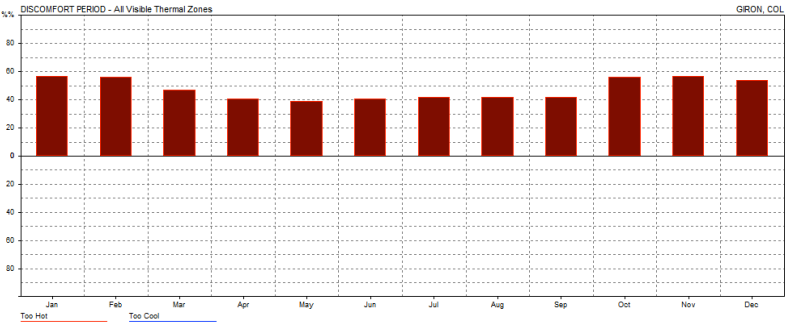

**A1 Tapia pisada / Teja de barro, tierra y caña brava pañetada**

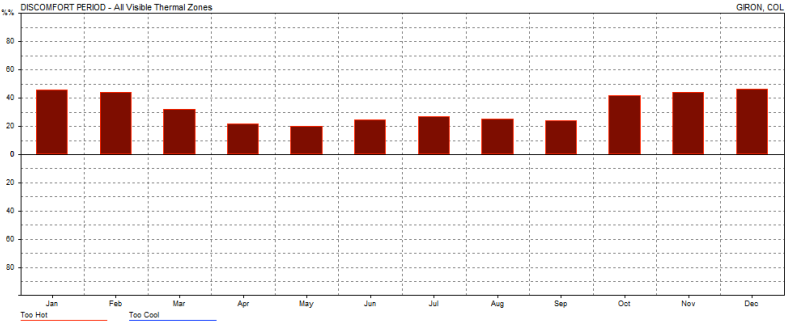

**A2 Tapia pisada / Teja de barro, mortero y machimbre**

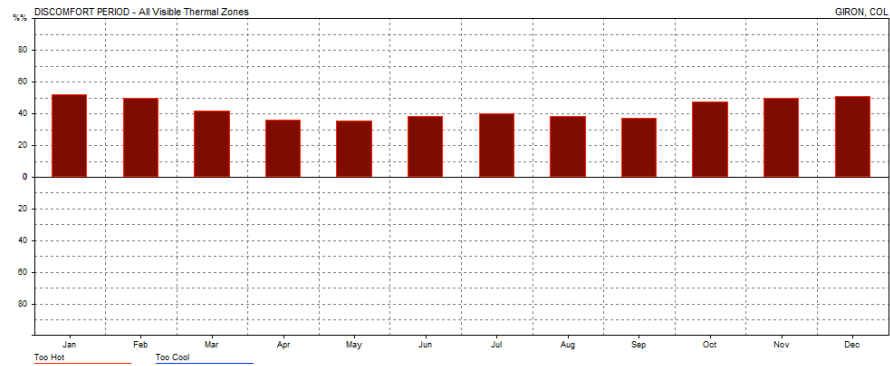

**A3 Tapia pisada / Teja de asbesto**

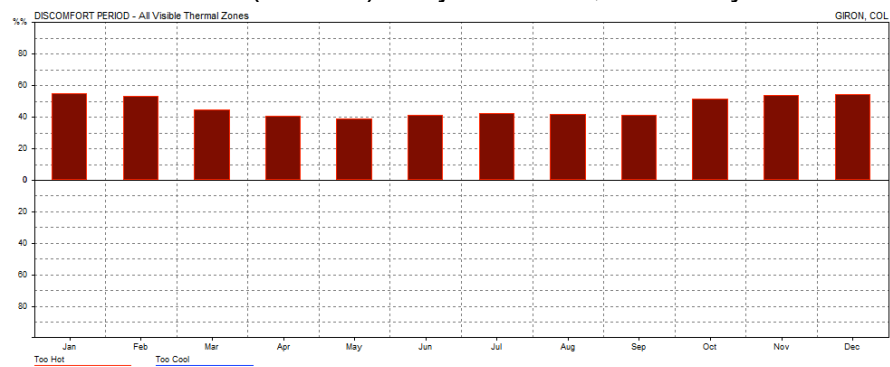

**A4 Tapia pisada / Teja termoacústica (Estrutech)**

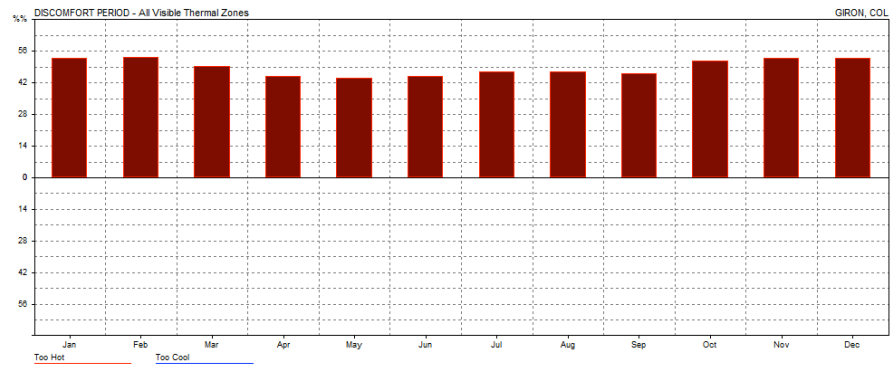

### B1 Ladrillo macizo (temoza) / Teja de barro, tierra y caña brava pañetada

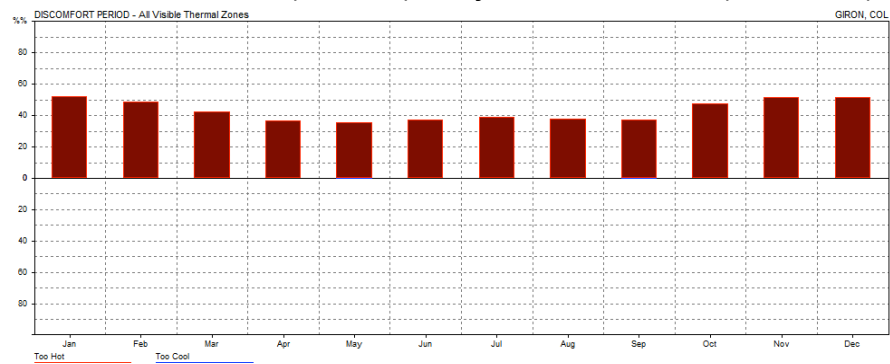

### B2 Ladrillo macizo (temoza) / Teja de barro, mortero y machimbre

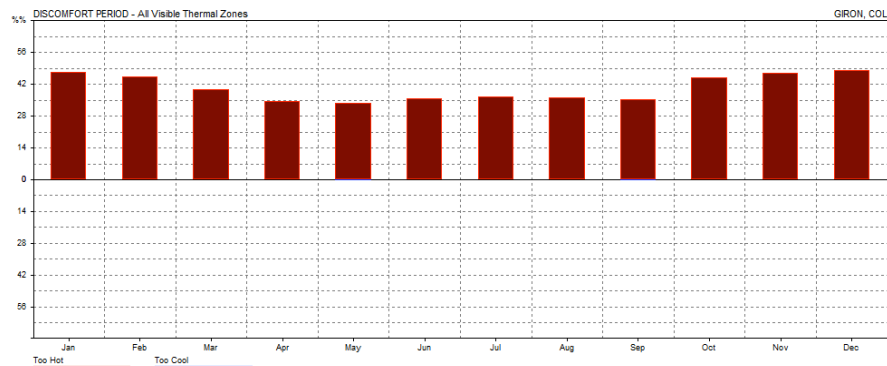

### B3 Ladrillo macizo (temoza) / Teja de asbesto

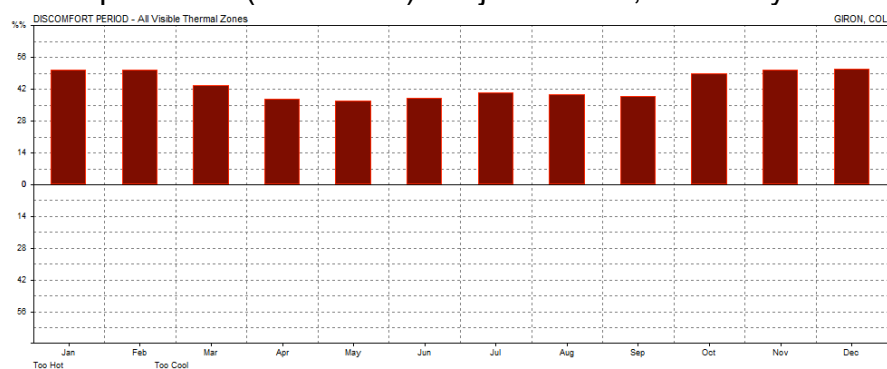

### B4 Ladrillo macizo (temoza) / Teja termoacústica (Estrutech)

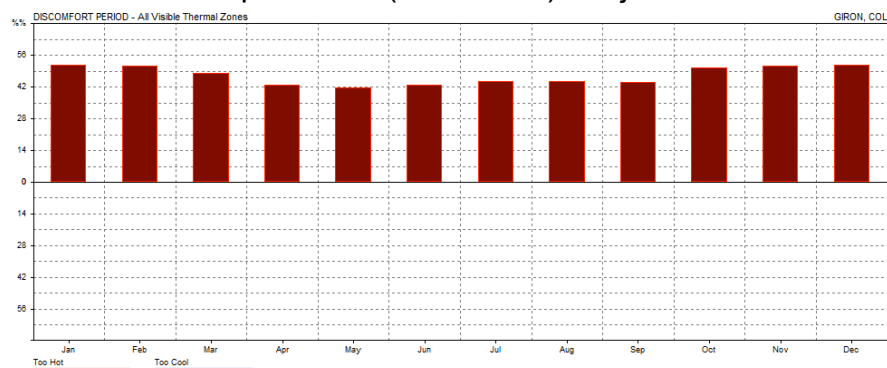

### C1 Ladrillo perforado (estructural) / Teja de barro, tierra y caña brava pañetada

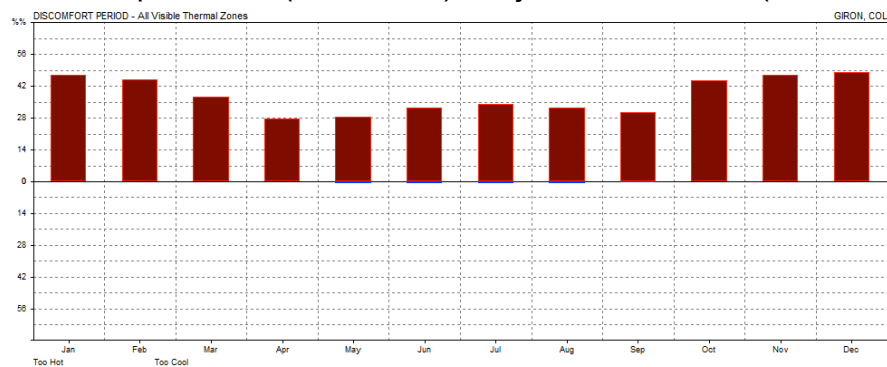

### C2 Ladrillo perforado (estructural) / Teja de barro, mortero y machimbre

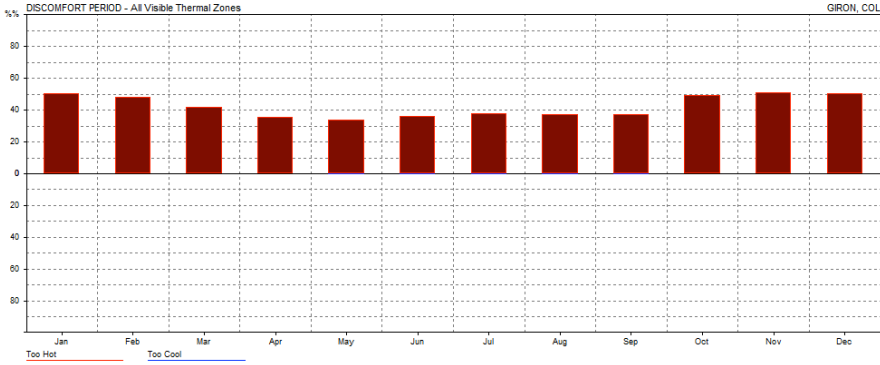

### C3 Ladrillo perforado (estructural) / Teja de asbesto

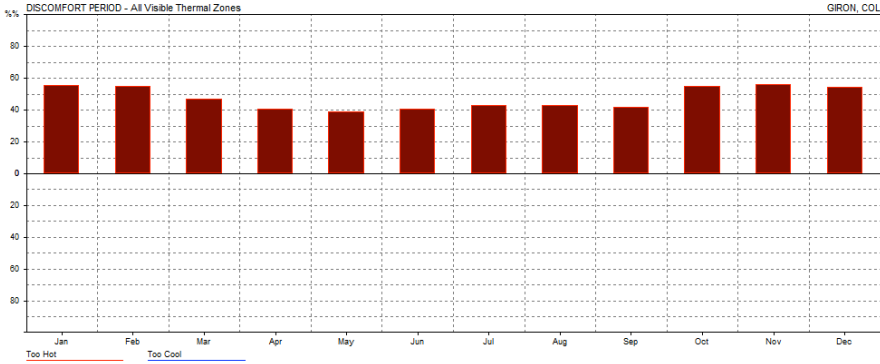

### C4 Ladrillo perforado (estructural) / Teja termoacústica (Estrutech)

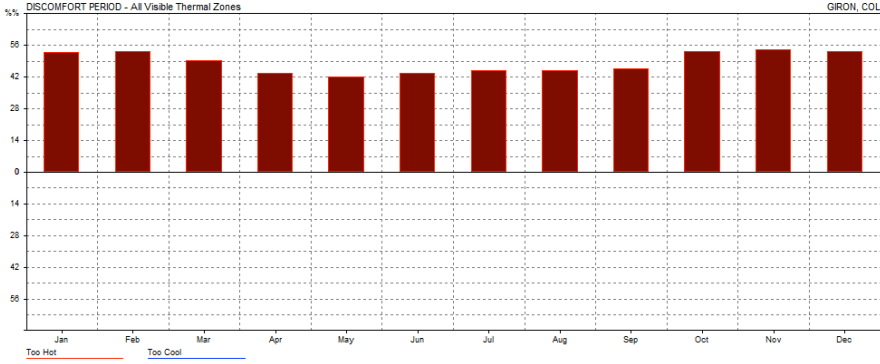

D1 Ladrillo hueco (H15) / Teja de barro, tierra y caña brava pañetada

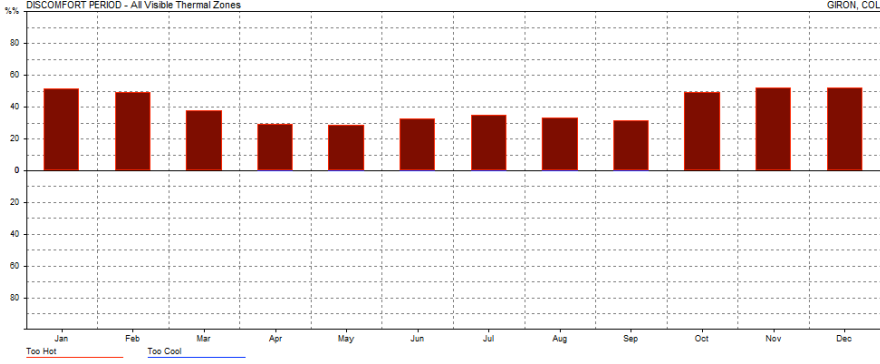

D2 Ladrillo hueco (H15) / Teja de barro, mortero y machimbre

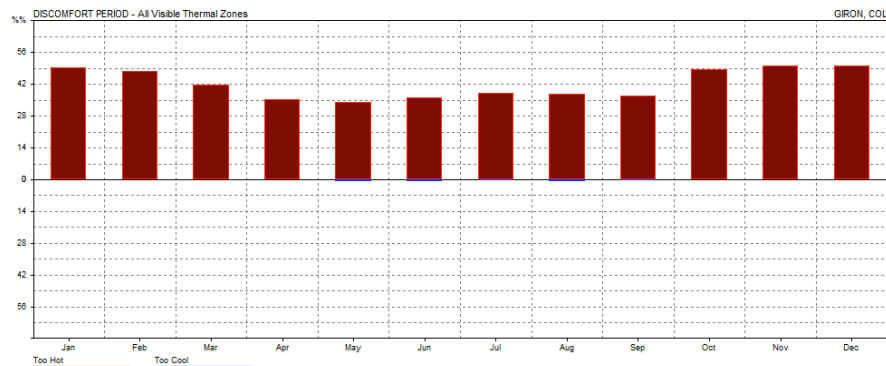

D3 Ladrillo hueco (H15) / Teja de asbesto

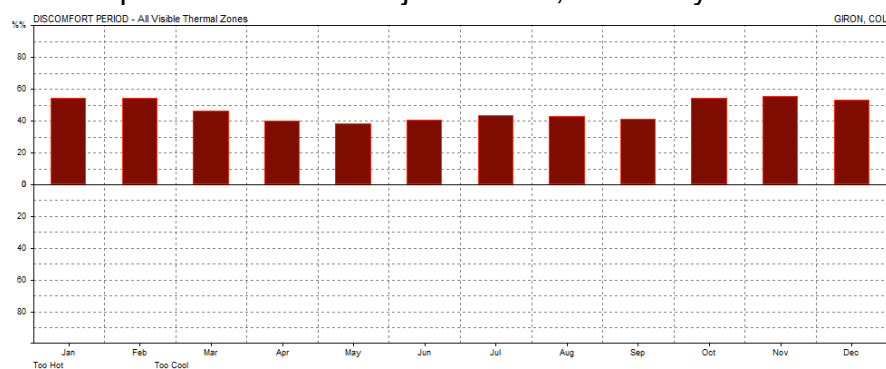

D4 Ladrillo hueco (H15) / Teja termoacústica (Estrutech)

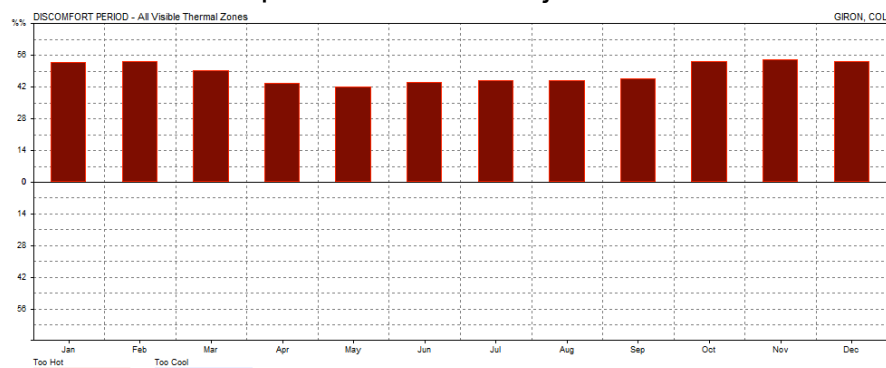

## E1 Bloque de concreto / Teja de barro, tierra y caña brava pañetada

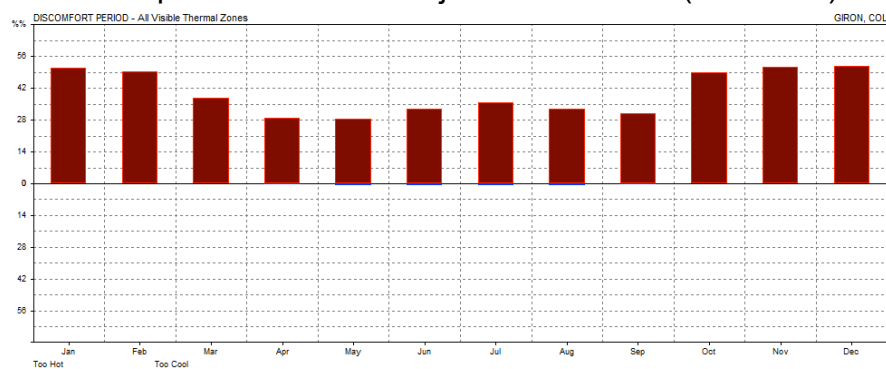

## E2 Bloque de concreto / Teja de barro, mortero y machimbre

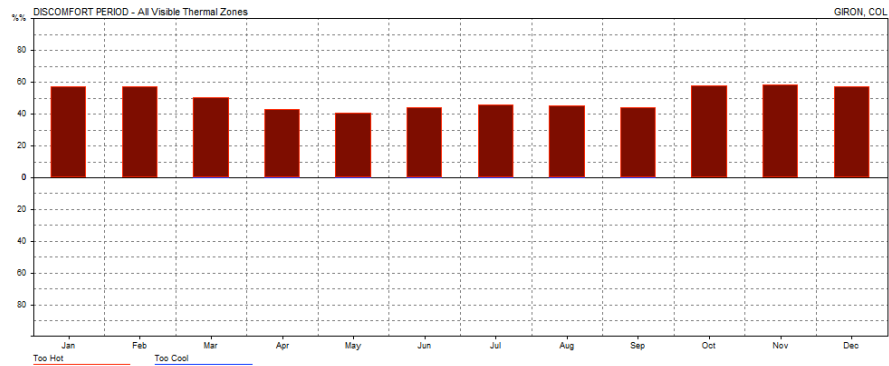

## E3 Bloque de concreto / Teja de asbesto

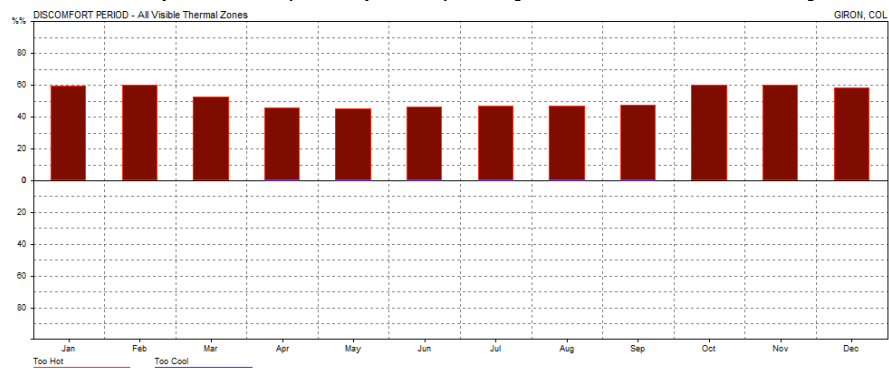

## E4 Bloque de concreto / Teja termoacústica (Estrutech)

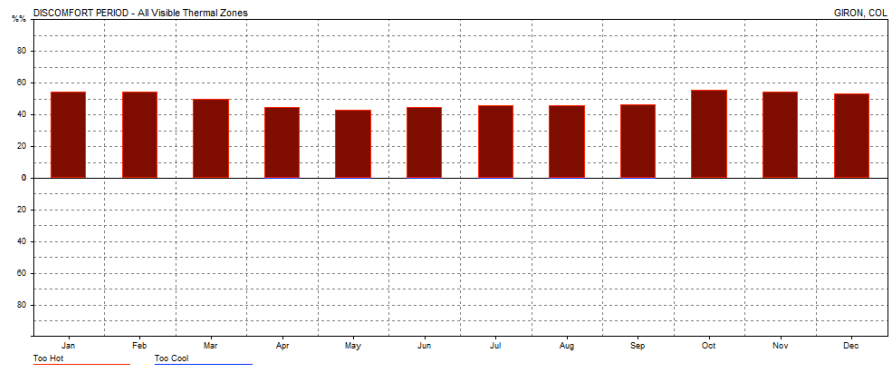

### F1 Poliestireno Expandido (Durapanel)/Teja de barro, tierra y caña brava pañetada

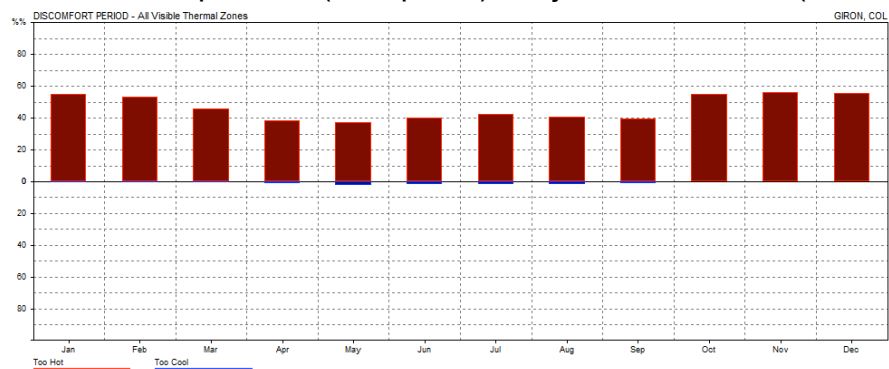

### F2 Poliestireno Expandido (Durapanel) / Teja de barro, mortero y machimbre

### F3 Poliestireno Expandido (Durapanel) / Teja de asbesto

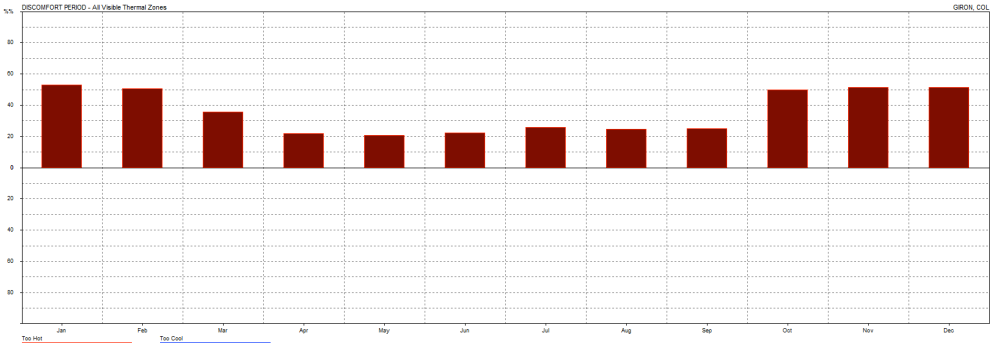

### F4 Poliestireno Expandido (Durapanel) / Teja termoacústica (Estrutech)

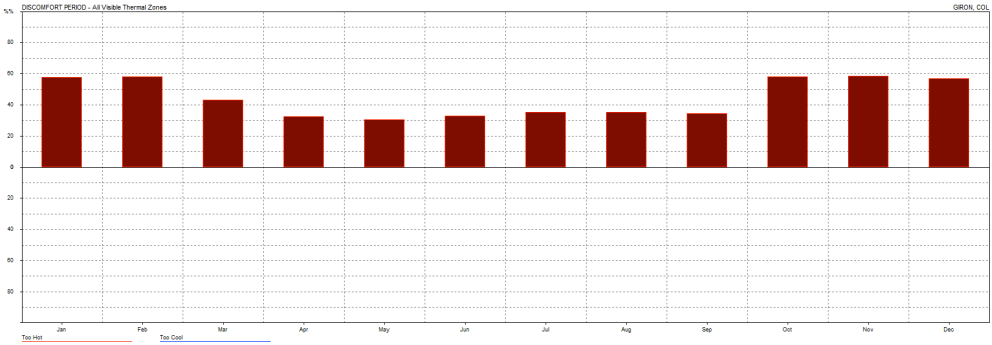

**Anexo X. Porcentaje de horas de disconfort para combinación de materiales para casa 2**

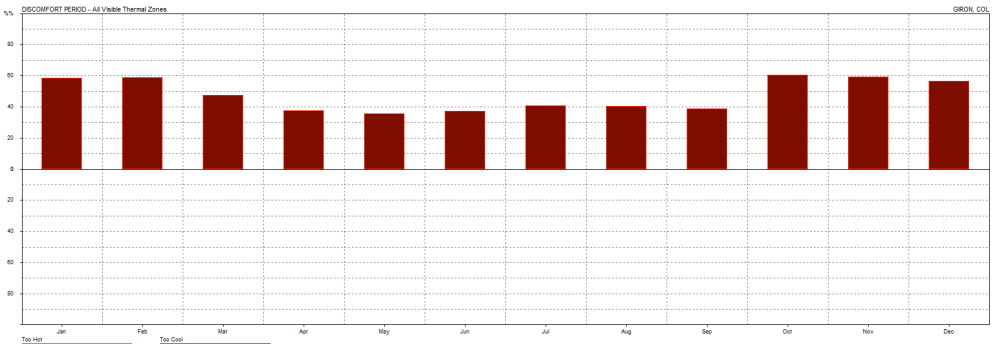

**A1 Tapia pisada / Teja de barro, tierra y caña brava pañetada**

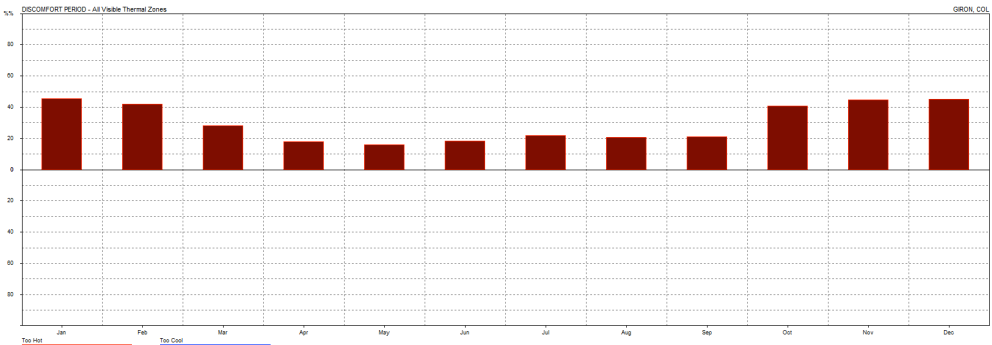

**A2 Tapia pisada / Teja de barro, mortero y machimbre**

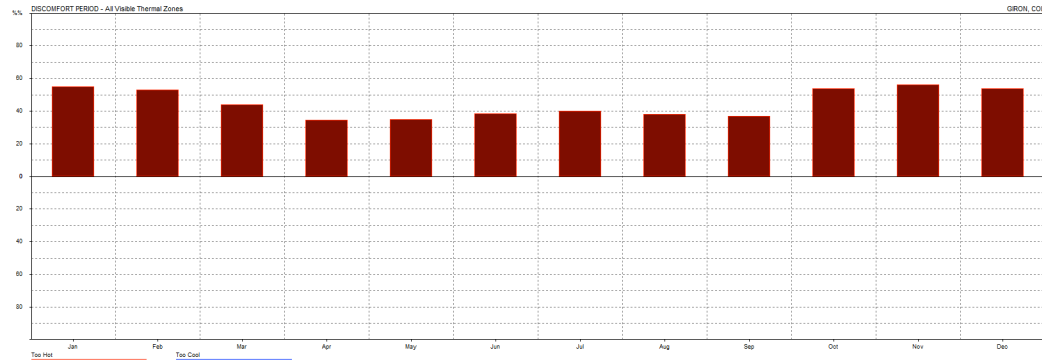

**A3 Tapia pisada / Teja de asbesto**

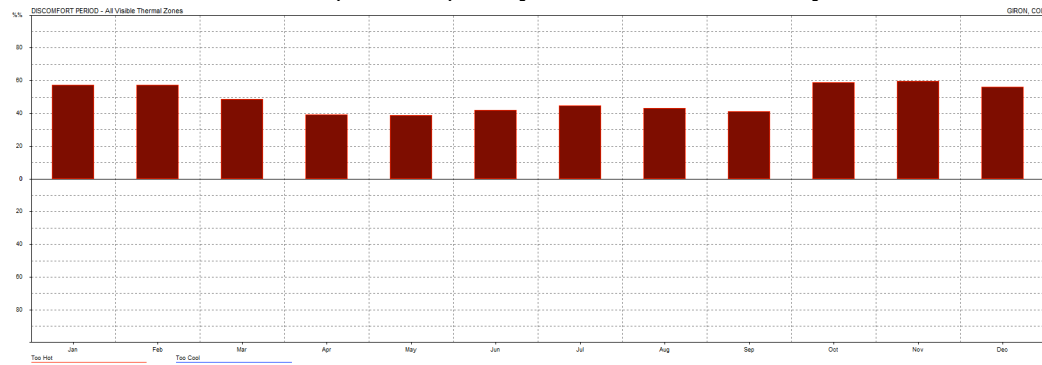

**A4 Tapia pisada / Teja termoacústica (Estrutech)**

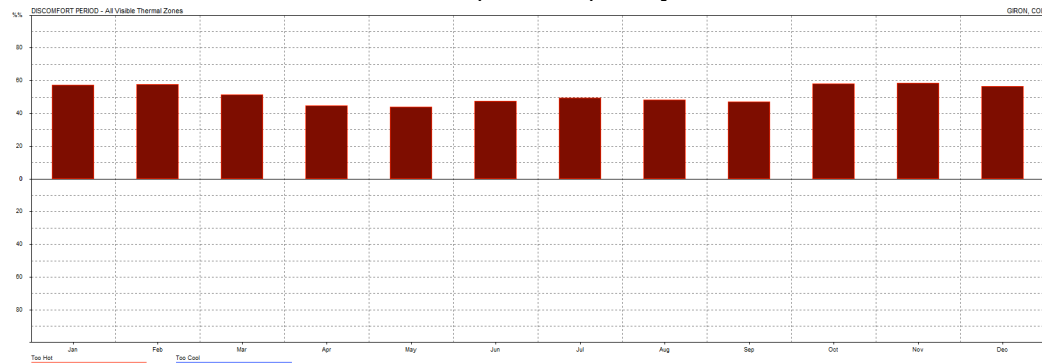

### B1 Ladrillo macizo (temoza) / Teja de barro, tierra y caña brava pañetada

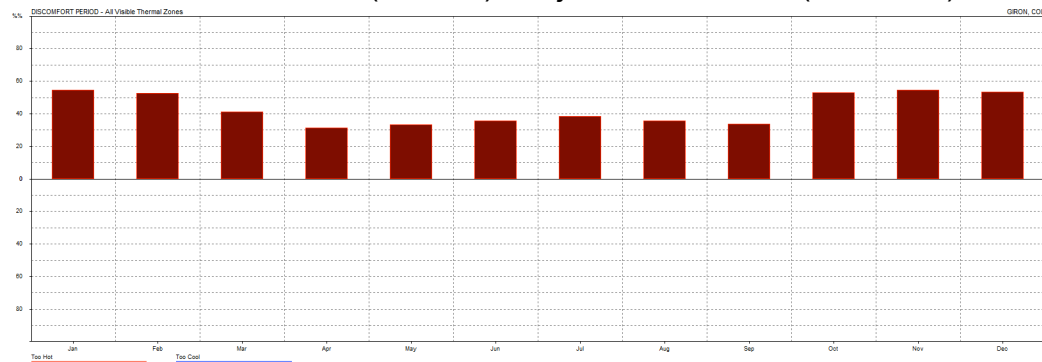

### B2 Ladrillo macizo (temoza) / Teja de barro, mortero y machimbre

### B3 Ladrillo macizo (temoza) / Teja de asbesto

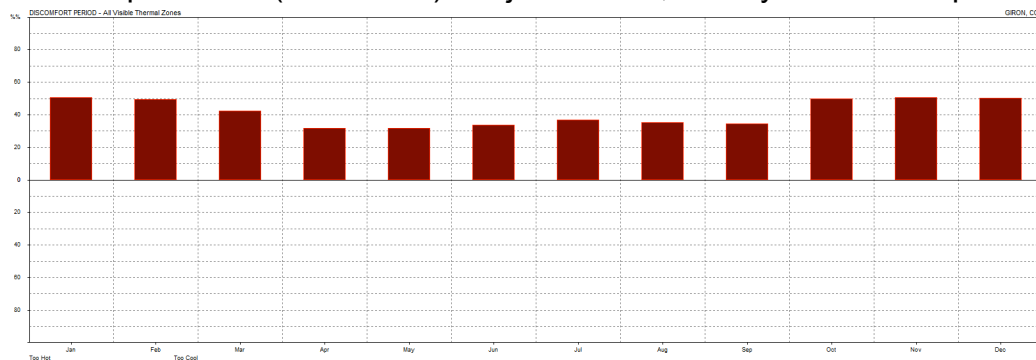

### B4 Ladrillo macizo (temoza) / Teja termoacústica (Estrutech)

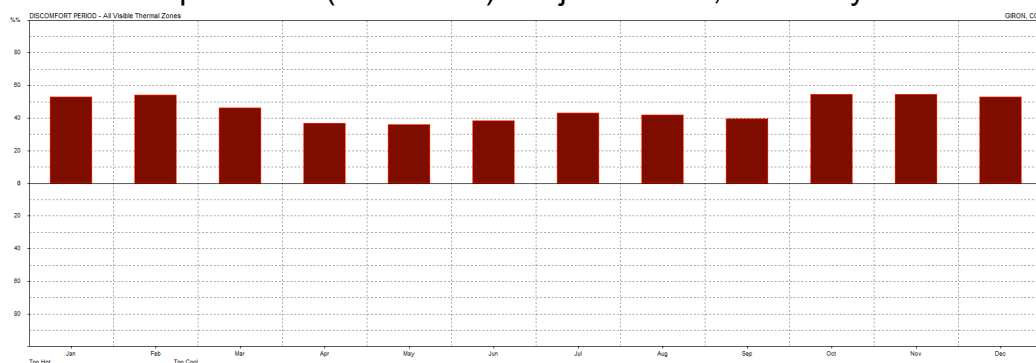

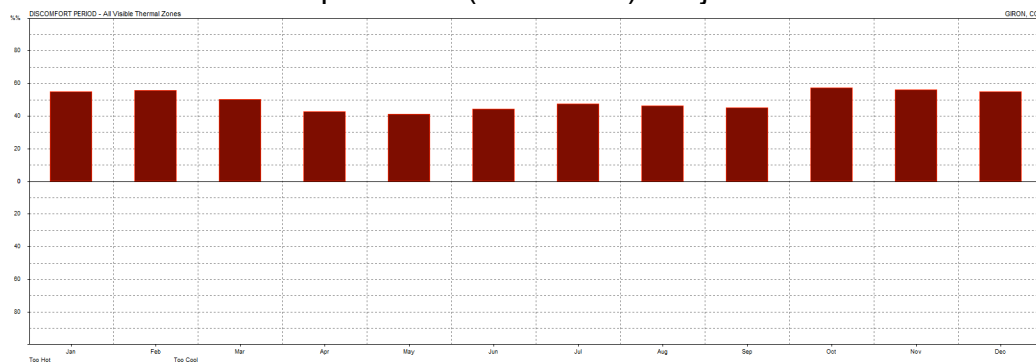

### C1 Ladrillo perforado (estructural) / Teja de barro, tierra y caña brava pañetada

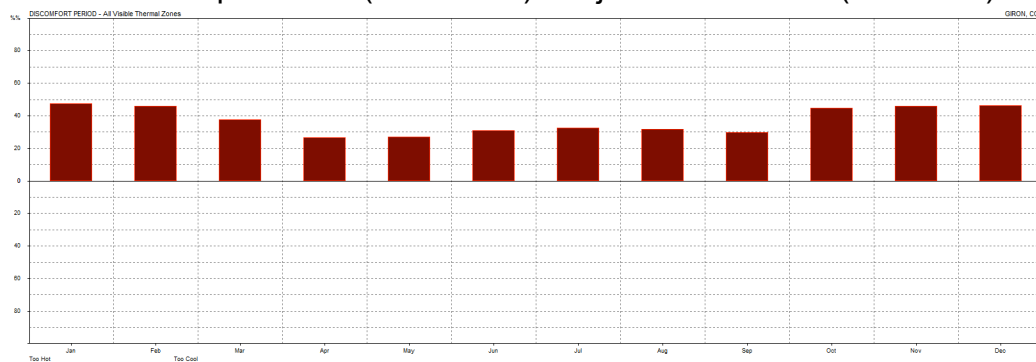

### C2 Ladrillo perforado (estructural) / Teja de barro, mortero y machimbre

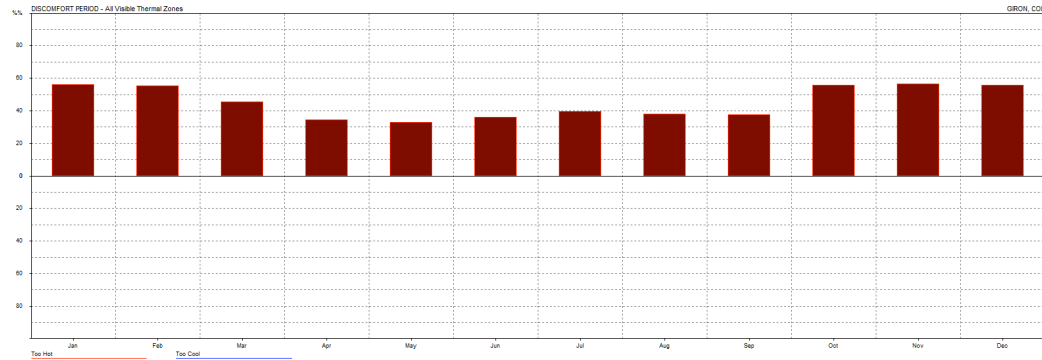

### C3 Ladrillo perforado (estructural) / Teja de asbesto

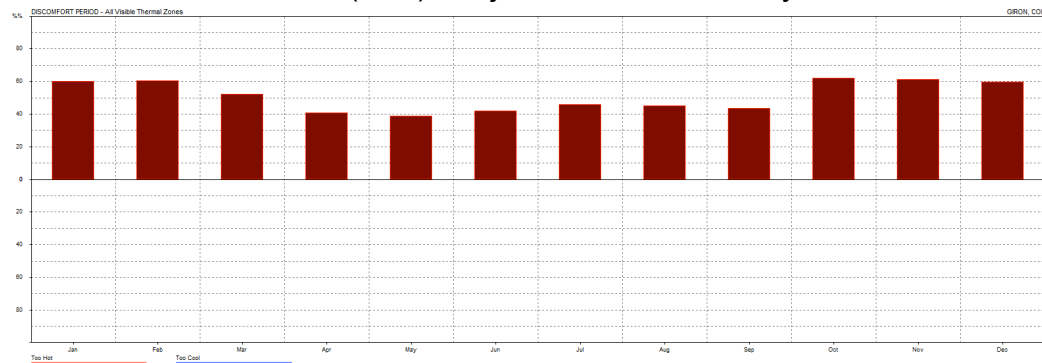

### C4 Ladrillo perforado (estructural) / Teja termoacústica (Estrutech)

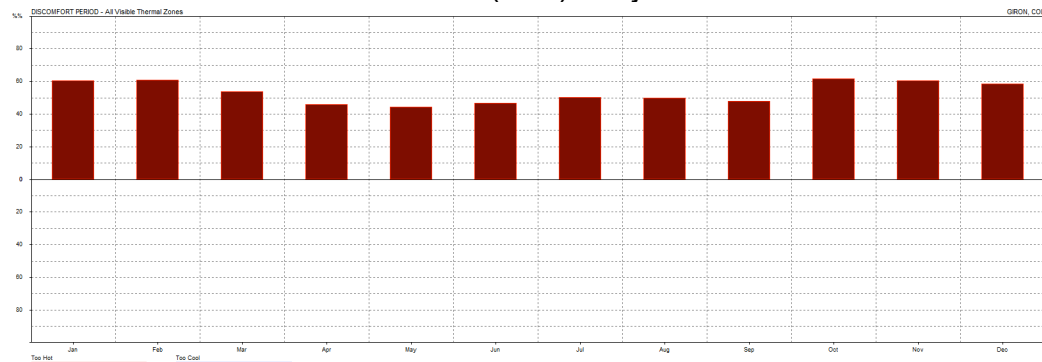

### D1 Ladrillo hueco (H15) / Teja de barro, tierra y caña brava pañetada

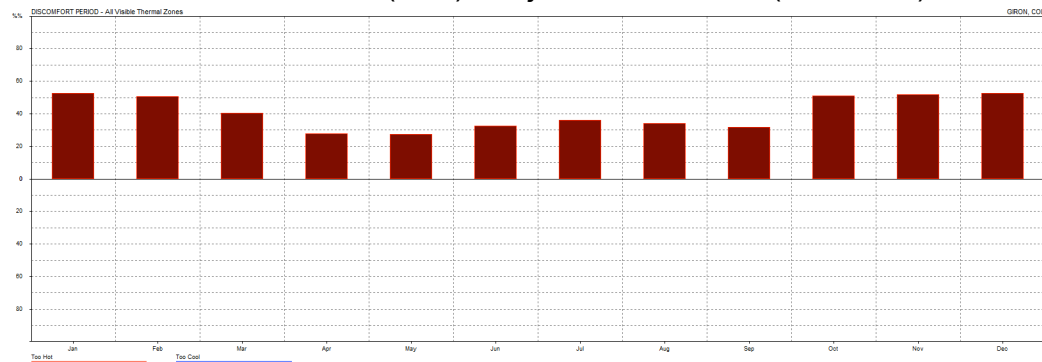

### D2 Ladrillo hueco (H15) / Teja de barro, mortero y machimbre

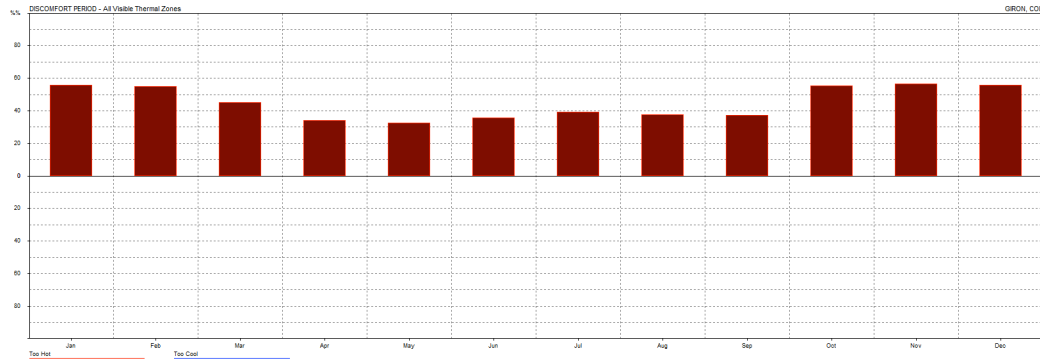

### D3 Ladrillo hueco (H15) / Teja de asbesto

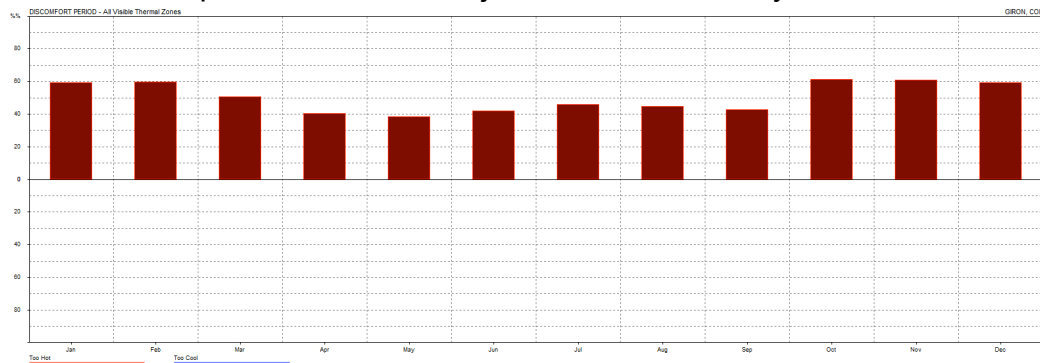

### D4 Ladrillo hueco (H15) / Teja termoacústica (Estrutech)

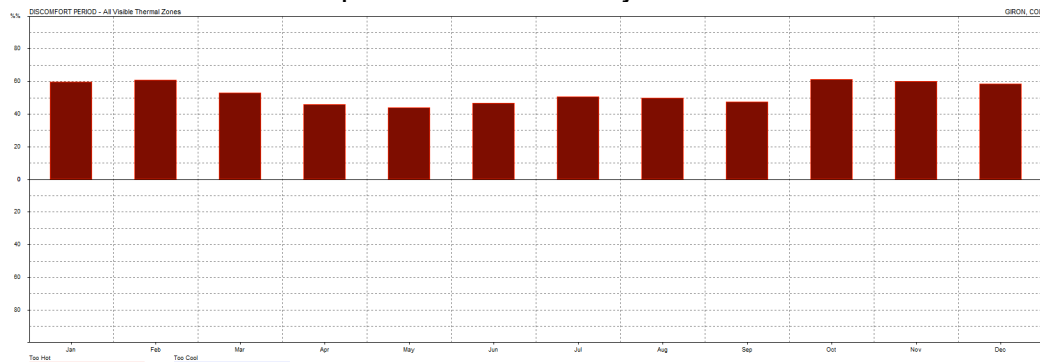

### E1 Bloque de concreto / Teja de barro, tierra y caña brava pañetada

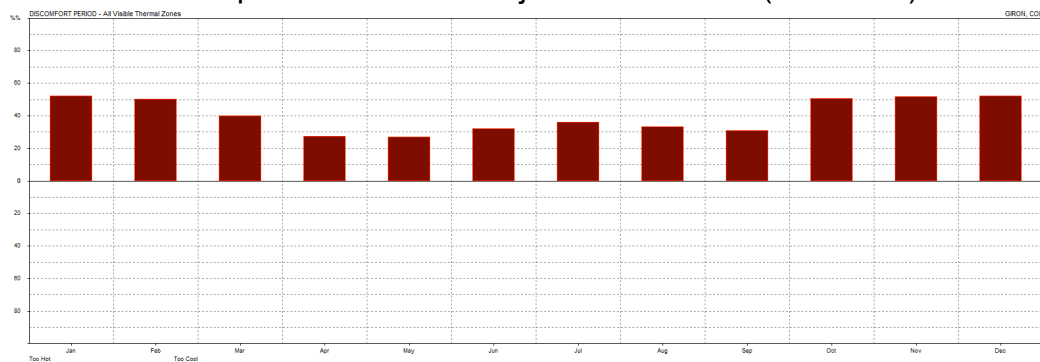

### E2 Bloque de concreto / Teja de barro, mortero y machimbre

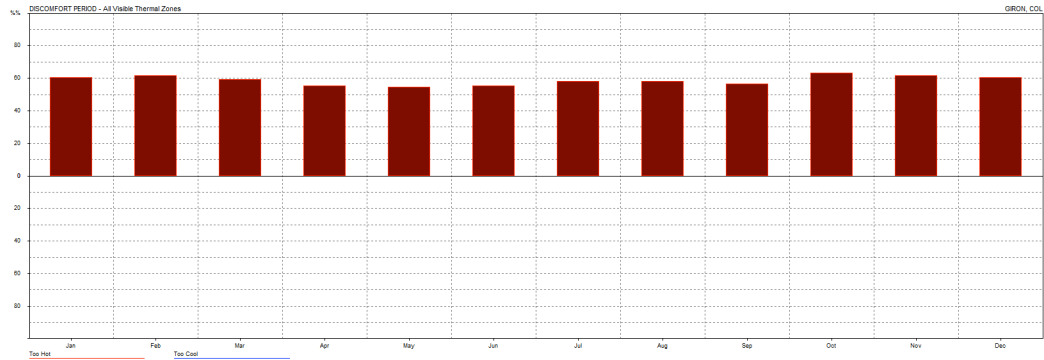

### E3 Bloque de concreto / Teja de asbesto

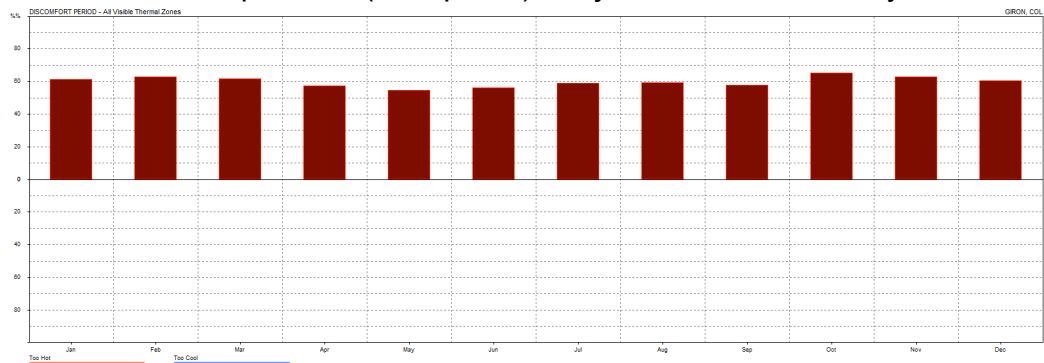

### E4 Bloque de concreto / Teja termoacústica (Estrutech)

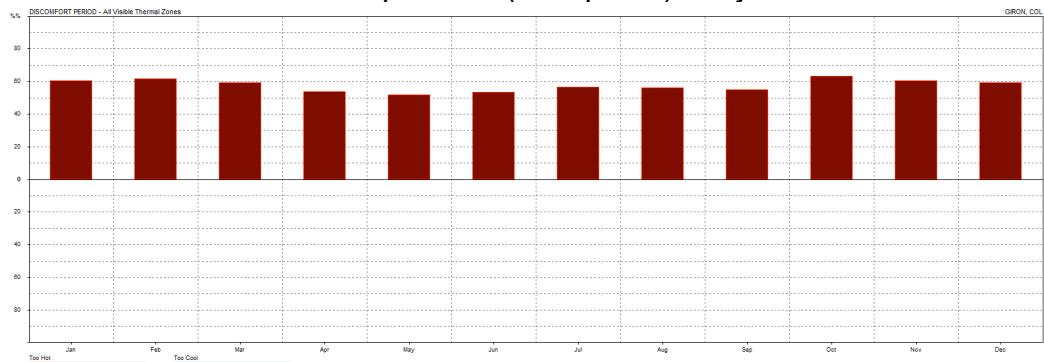

F1 Poliestireno Expandido (Durapanel)/Teja de barro, tierra y caña brava pañetada

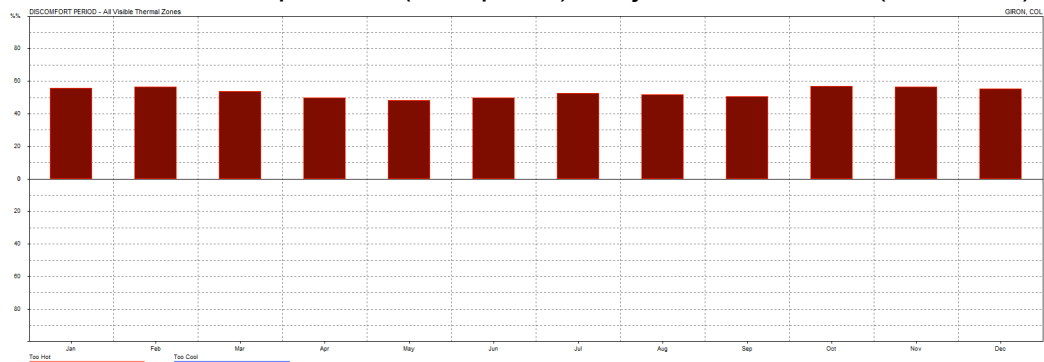

F2 Poliestireno Expandido (Durapanel) / Teja de barro, mortero y machimbre

F3 Poliestireno Expandido (Durapanel) / Teja de asbesto

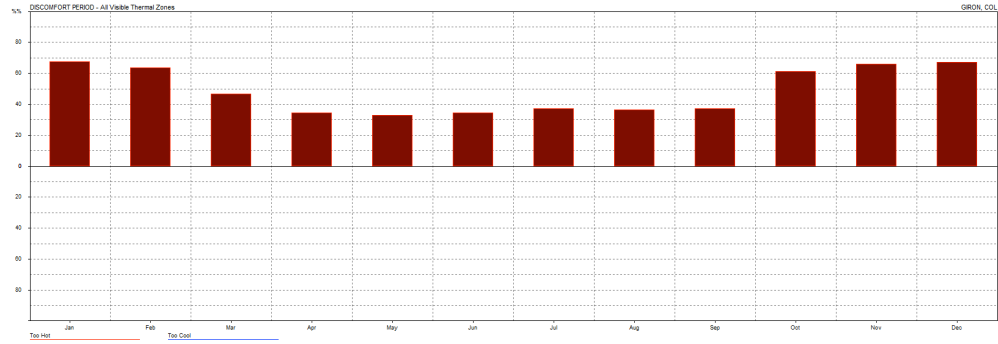

F4 Poliestireno Expandido (Durapanel) / Teja termoacústica (Estrutech)

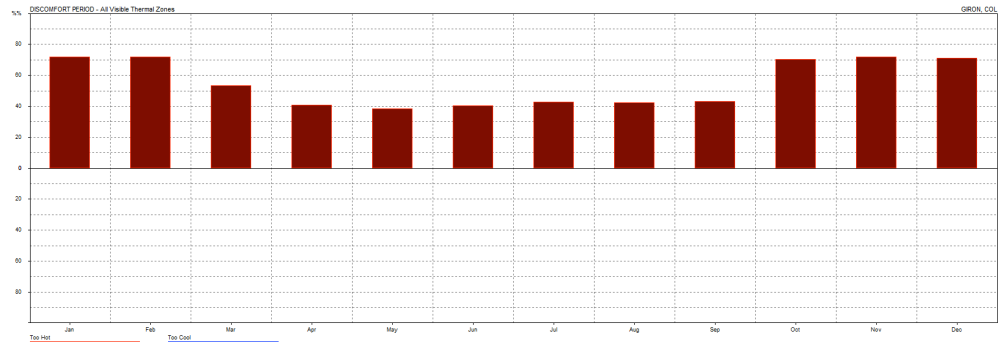

**Anexo Y. Porcentaje de horas de disconfort para combinación de materiales para casa 3**

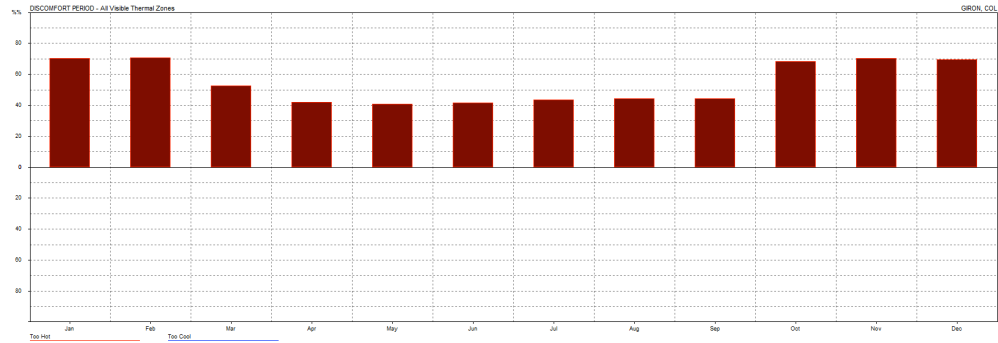

**A1 Tapia pisada / Teja de barro, tierra y caña brava pañetada (cubierta tradicional)**

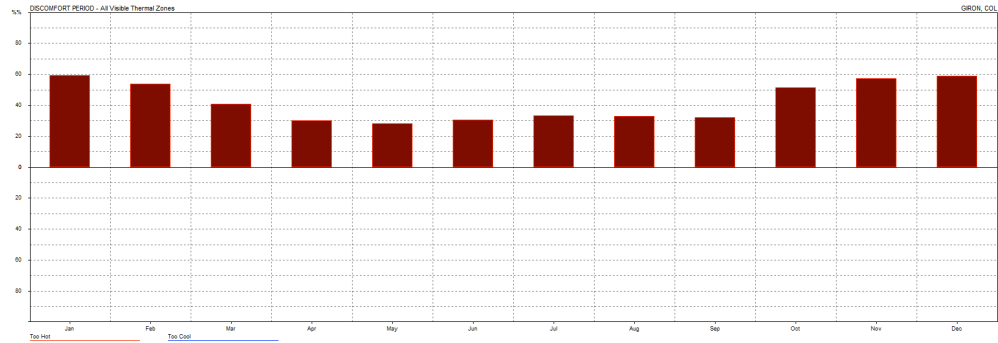

**A2 Tapia pisada / Teja de barro, mortero y machimbre**

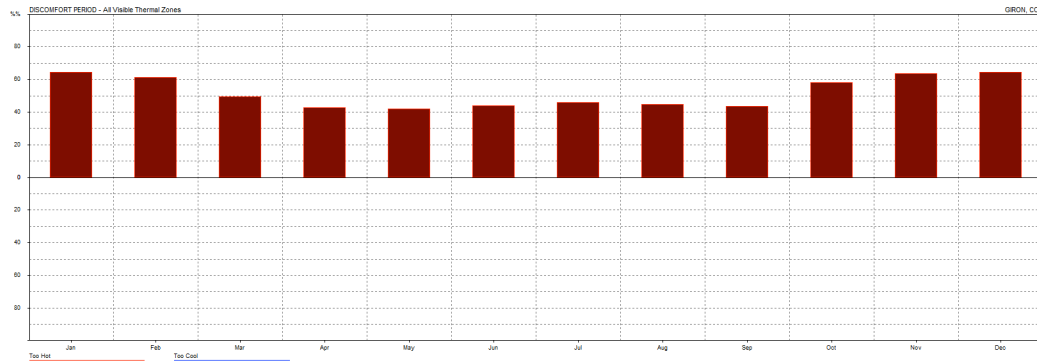

**A3 Tapia pisada / Teja de asbesto**

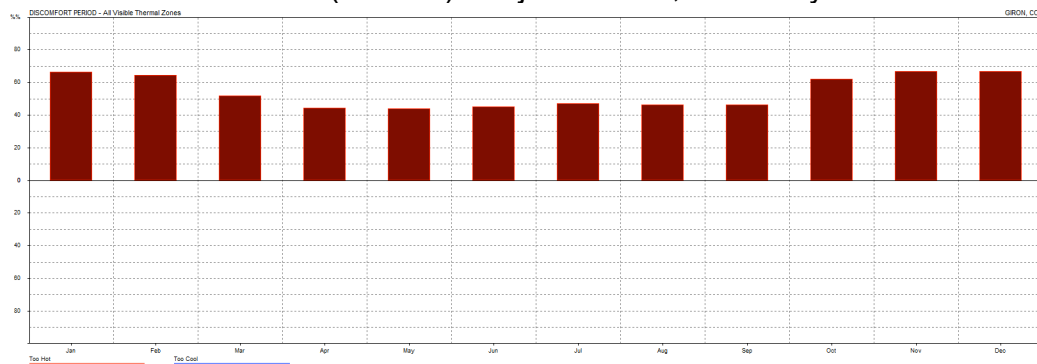

**A4 Tapia pisada / Teja termoacústica (Estrutech)**

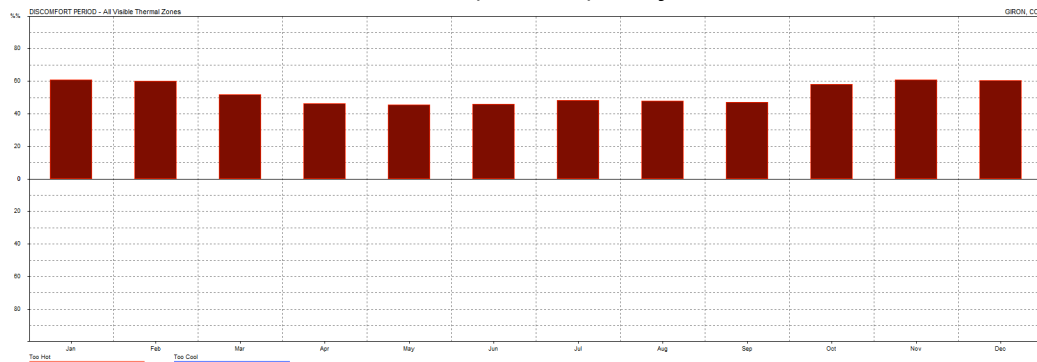

## B1 Ladrillo macizo (temoza) / Teja de barro, tierra y caña brava pañetada

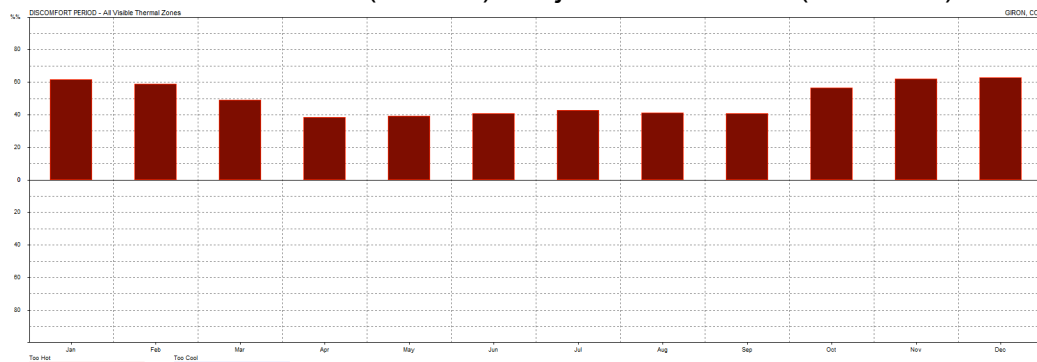

## B2 Ladrillo macizo (temoza) / Teja de barro, mortero y machimbre

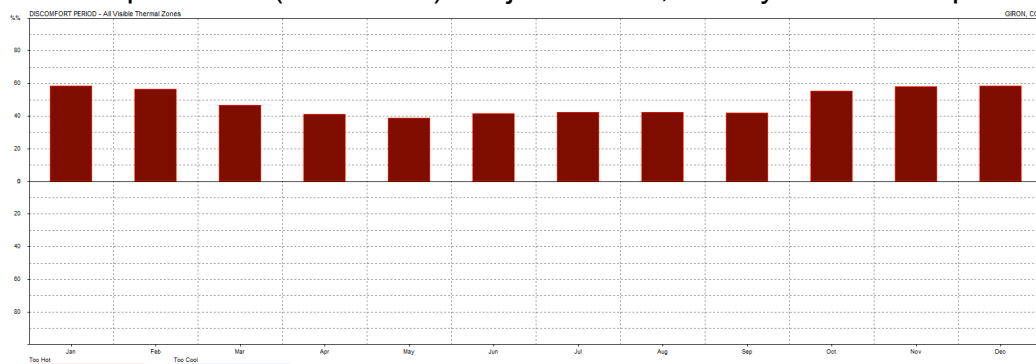

## B3 Ladrillo macizo (temoza) / Teja de asbesto

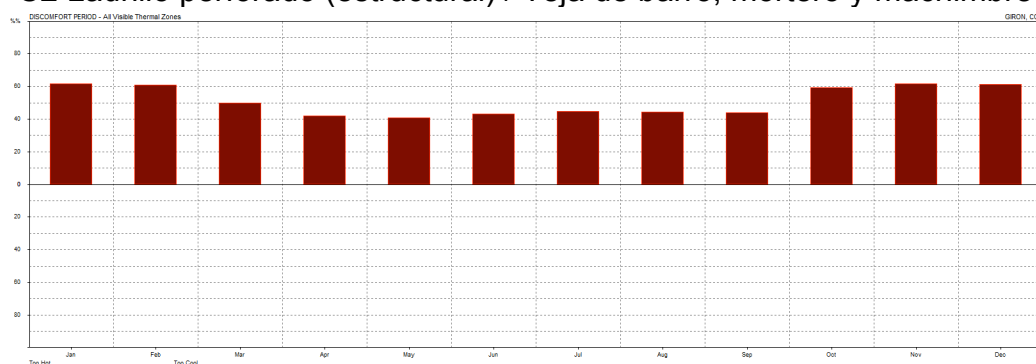

## B4 Ladrillo macizo (temoza) / Teja termoacústica (Estrutech)

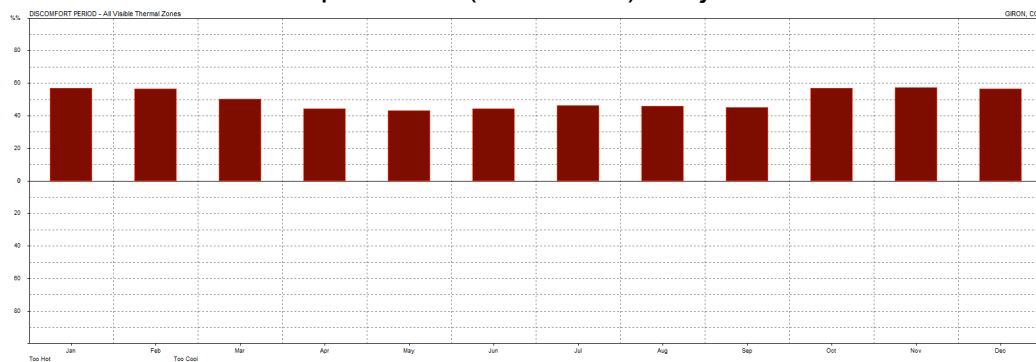

## C1 Ladrillo perforado (estructural) / Teja de barro, tierra y caña brava pañetada

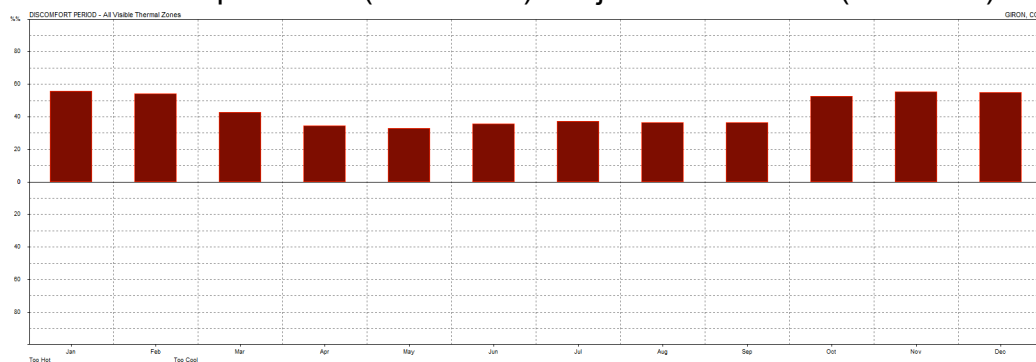

## C2 Ladrillo perforado (estructural) / Teja de barro, mortero y machimbre

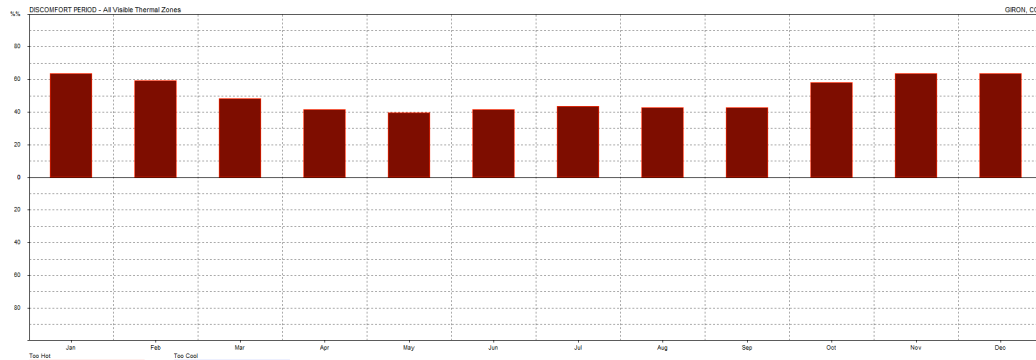

## C3 Ladrillo perforado (estructural) / Teja de asbesto

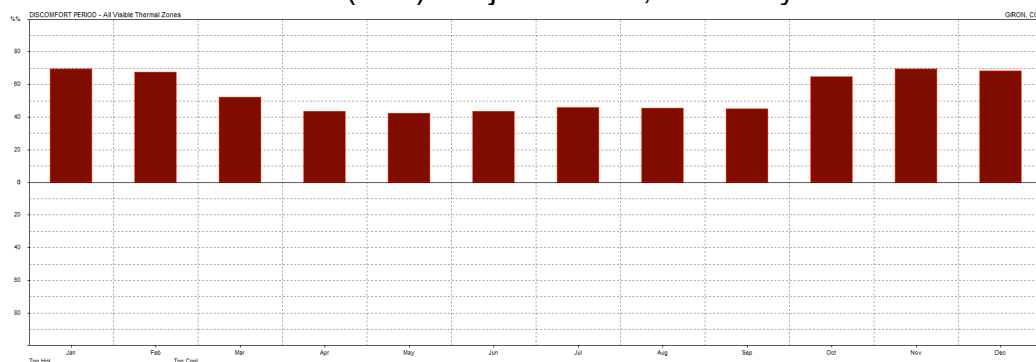

## C4 Ladrillo perforado (estructural) / Teja termoacústica (Estrutech)

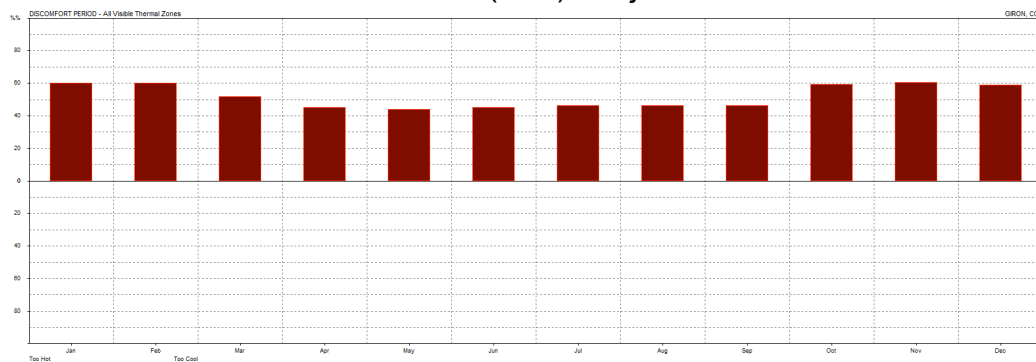

### D1 Ladrillo hueco (H15) / Teja de barro, tierra y caña brava pañetada

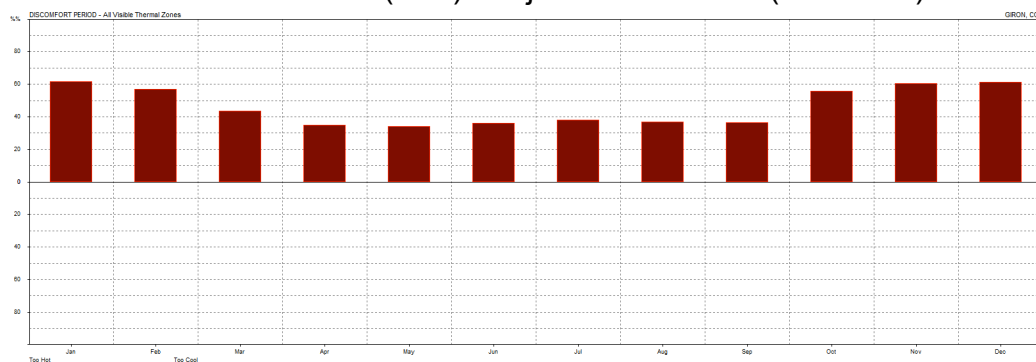

### D2 Ladrillo hueco (H15) / Teja de barro, mortero y machimbre

### D3 Ladrillo hueco (H15) / Teja de asbesto

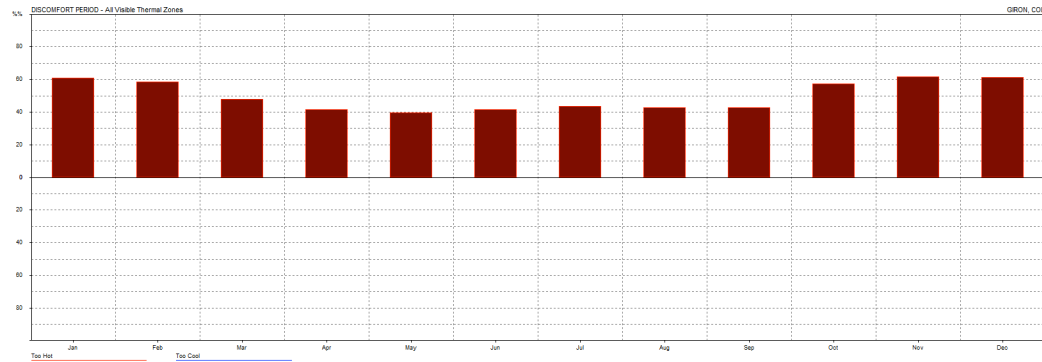

### D4 Ladrillo hueco (H15) / Teja termoacústica (Estrutech)

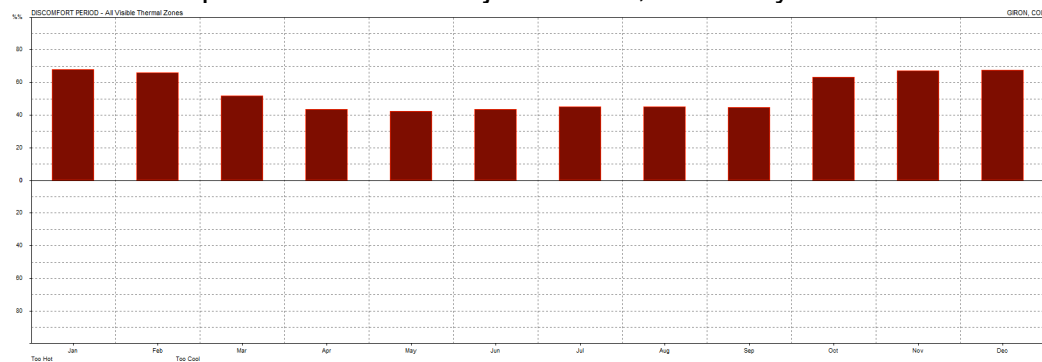

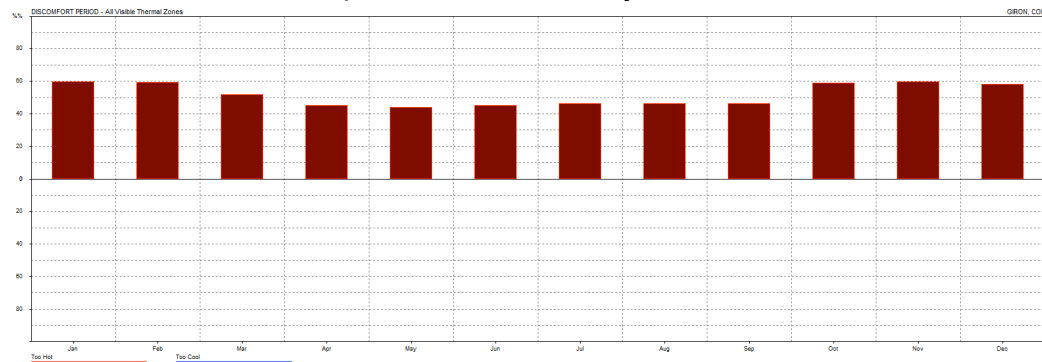

### E1 Bloque de concreto / Teja de barro, tierra y caña brava pañetada

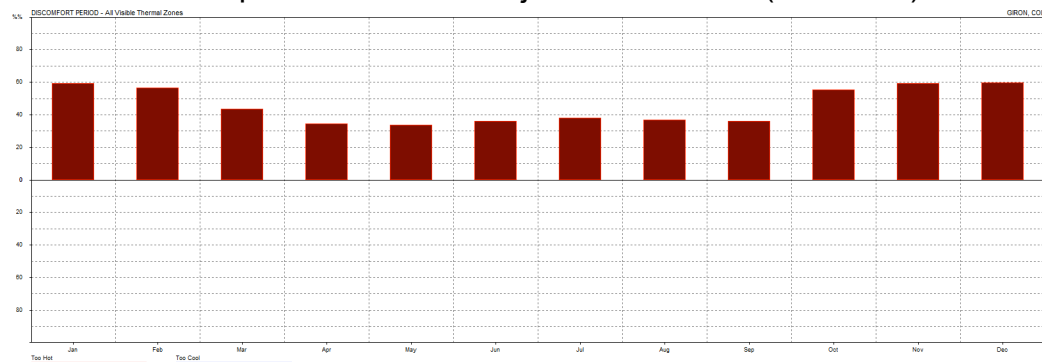

### E2 Bloque de concreto / Teja de barro, mortero y machimbre

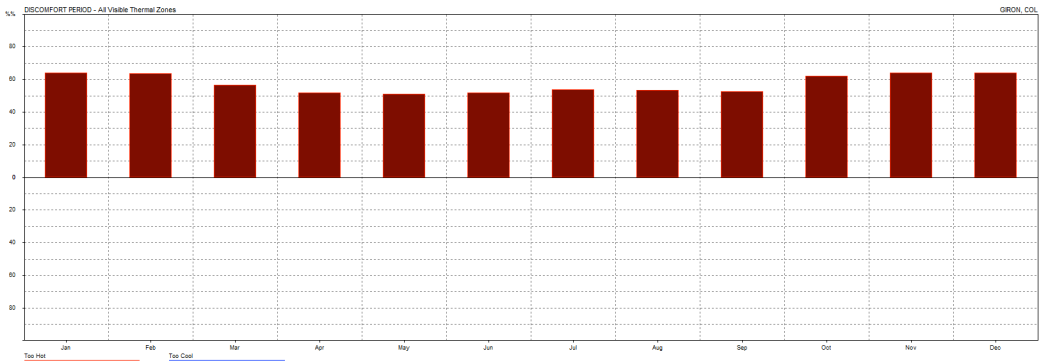

### E3 Bloque de concreto / Teja de asbesto

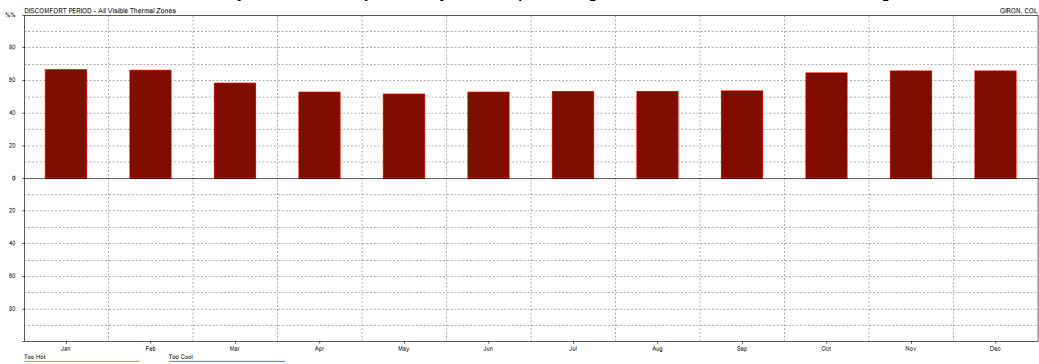

### E4 Bloque de concreto / Teja termoacústica (Estrutech)

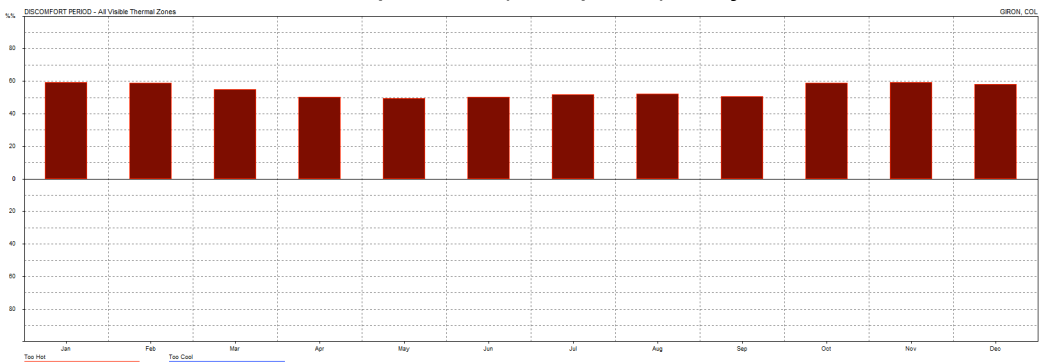

F1 Poliestireno Expandido (Durapanel)/Teja de barro, tierra y caña brava pañetada

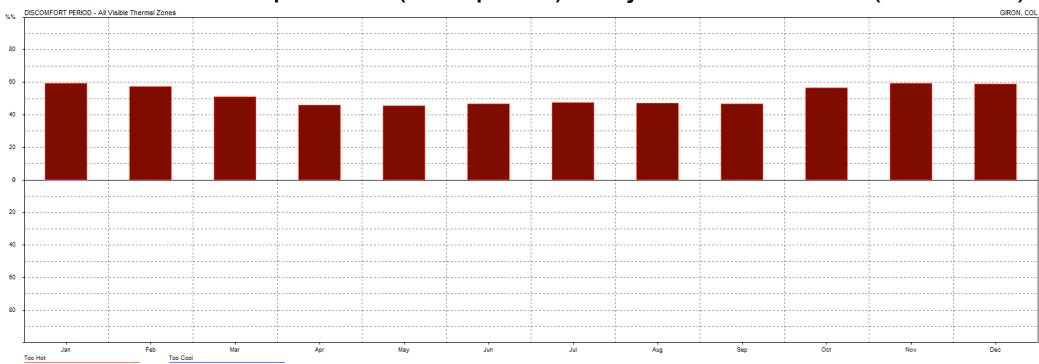

F2 Poliestireno Expandido (Durapanel) / Teja de barro, mortero y machimbre

F3 Poliestireno Expandido (Durapanel) / Teja de asbesto

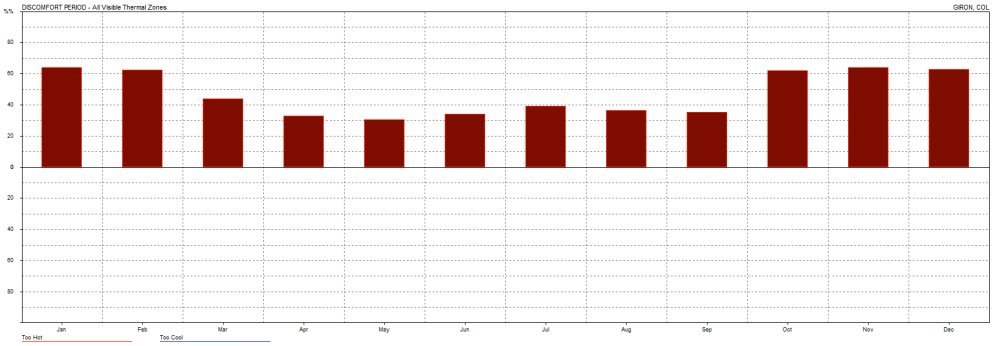

F4 Poliestireno Expandido (Durapanel) / Teja termoacústica (Estrutech)

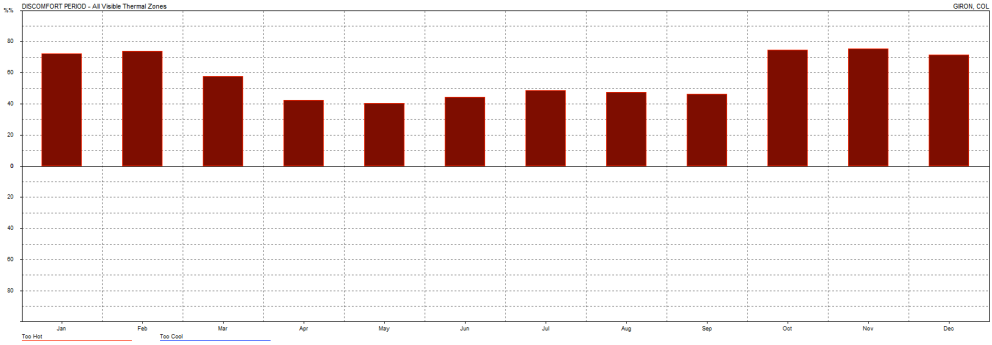

**Anexo Z. Porcentaje de horas de desconfort para combinación de materiales para casa 4**

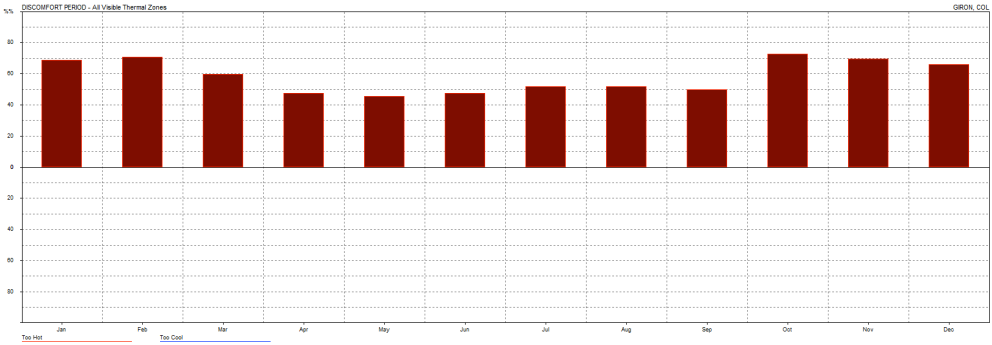

**A1 Tapia pisada / Teja de barro, tierra y caña brava pañetada**

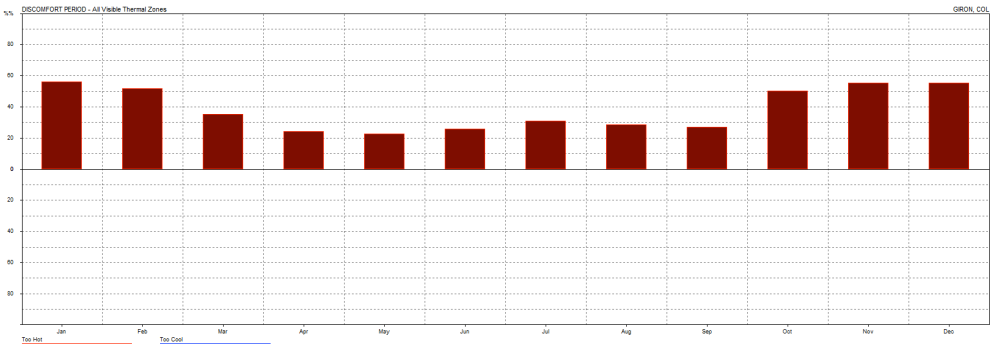

**A2 Tapia pisada / Teja de barro, mortero y machimbre**

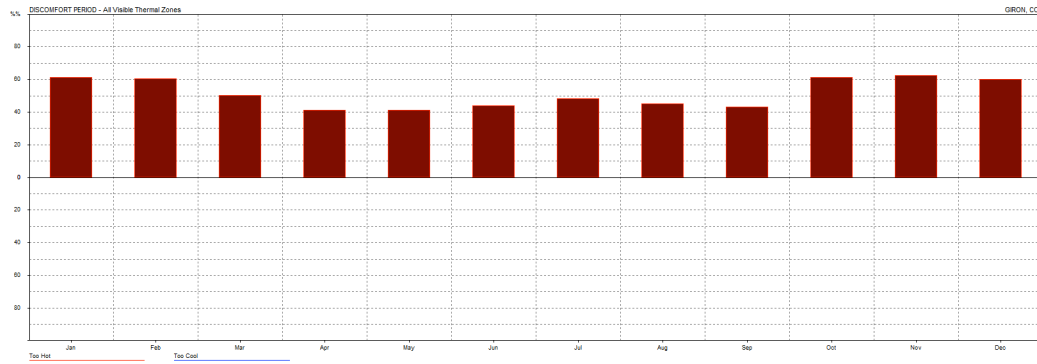

**A3 Tapia pisada / Teja de asbesto**

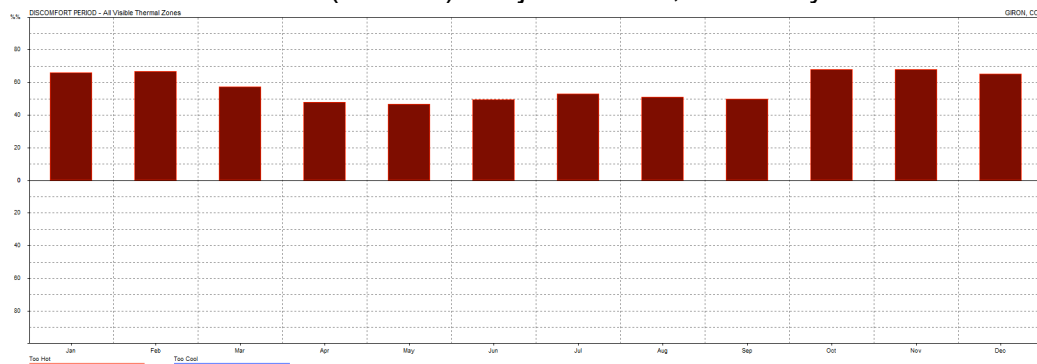

**A4 Tapia pisada / Teja termoacústica (Estrutech)**

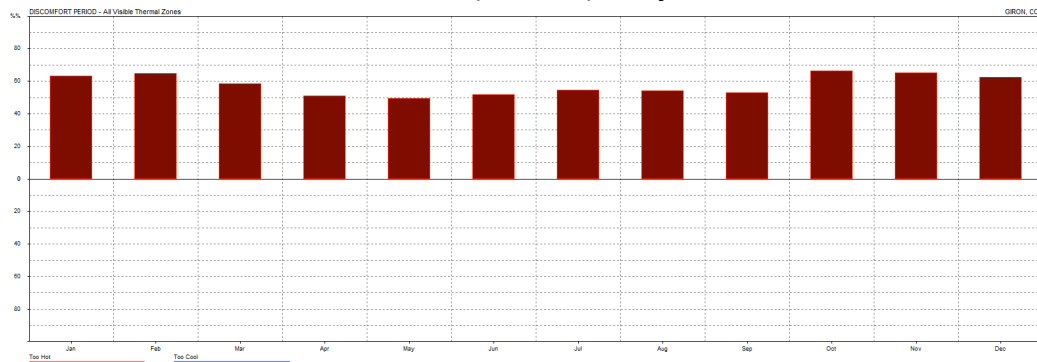

## B1 Ladrillo macizo (temoza) / Teja de barro, tierra y caña brava pañetada

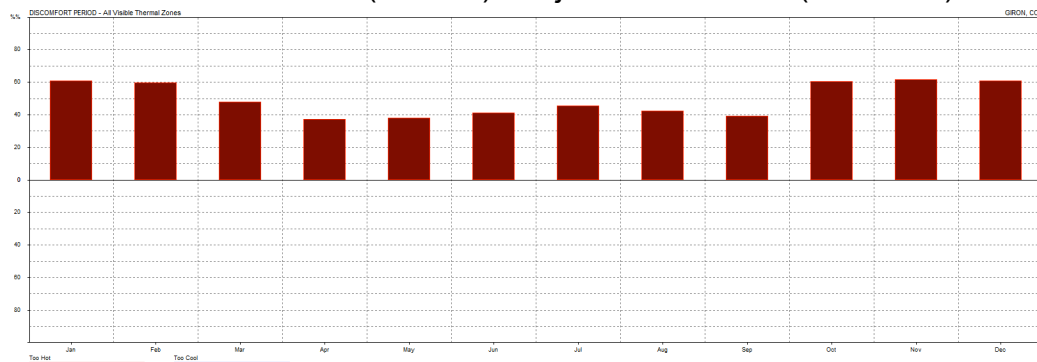

## B2 Ladrillo macizo (temoza) / Teja de barro, mortero y machimbre

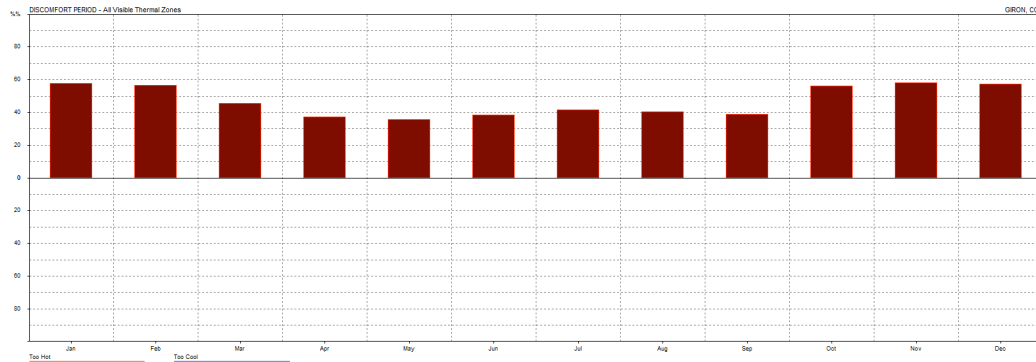

## B3 Ladrillo macizo (temoza) / Teja de asbesto

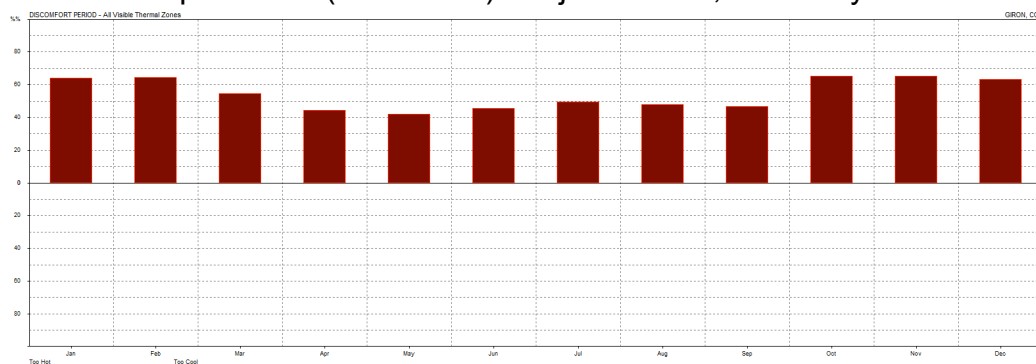

## B4 Ladrillo macizo (temoza) / Teja termoacústica (Estrutech)

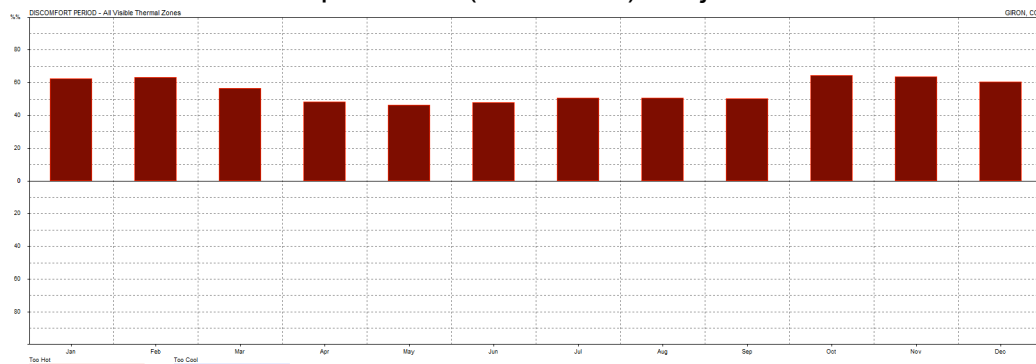

## C1 Ladrillo perforado (estructural) / Teja de barro, tierra y caña brava pañetada

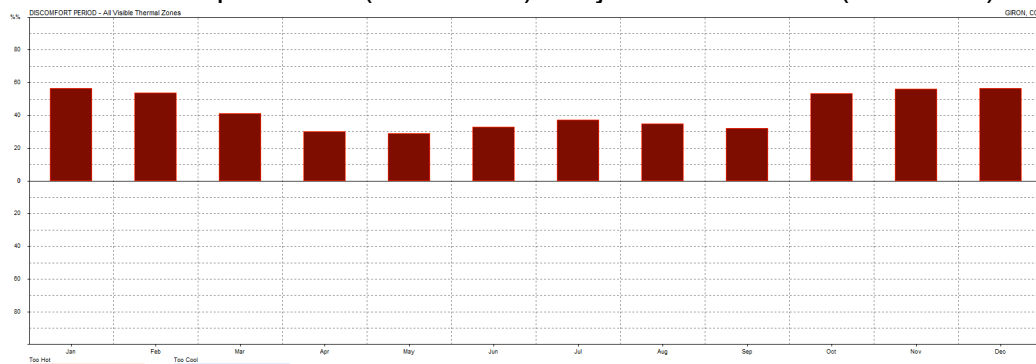

## C2 Ladrillo perforado (estructural) / Teja de barro, mortero y machimbre

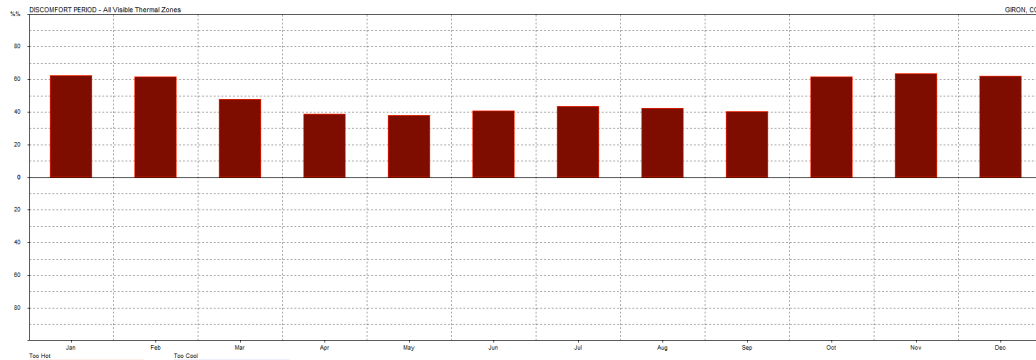

## C3 Ladrillo perforado (estructural) / Teja de asbesto

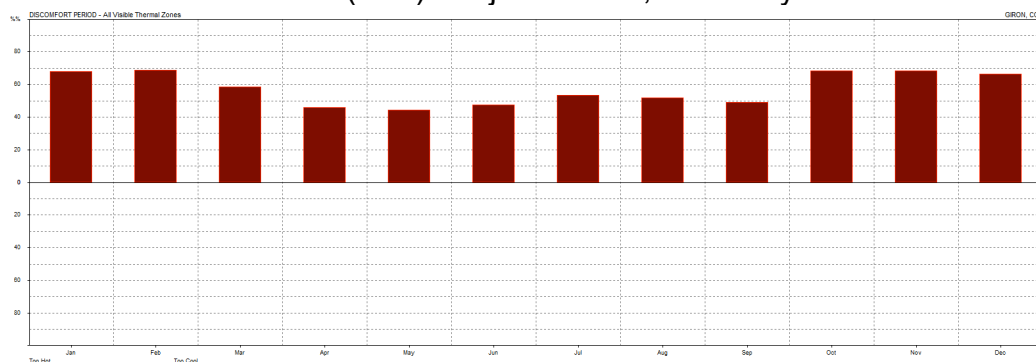

## C4 Ladrillo perforado (estructural) / Teja termoacústica (Estrutech)

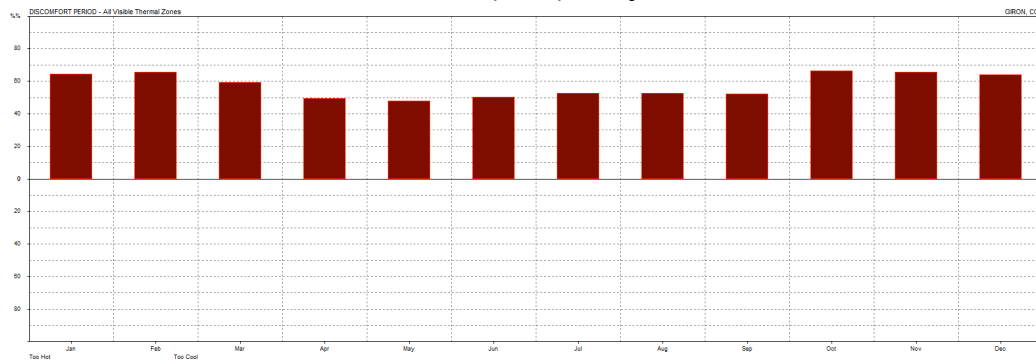

### D1 Ladrillo hueco (H15) / Teja de barro, tierra y caña brava pañetada

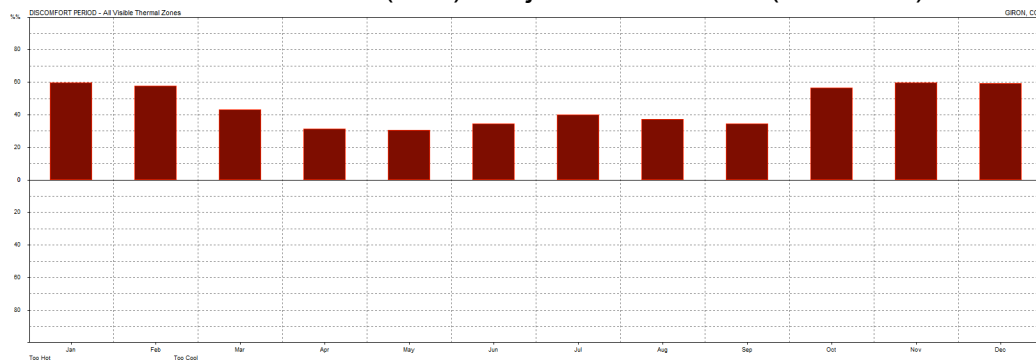

### D2 Ladrillo hueco (H15) / Teja de barro, mortero y machimbre

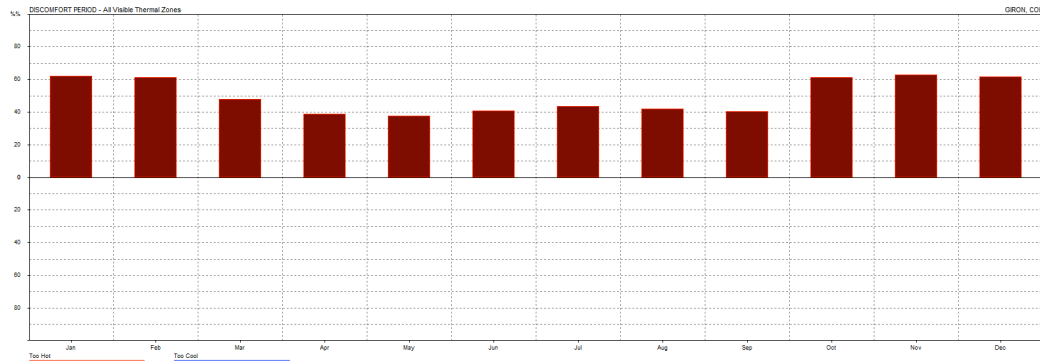

### D3 Ladrillo hueco (H15) / Teja de asbesto

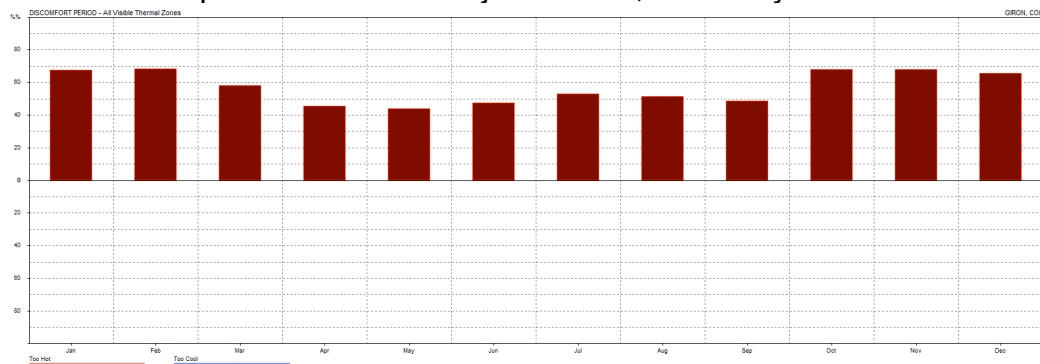

### D4 Ladrillo hueco (H15) / Teja termoacústica (Estrutech)

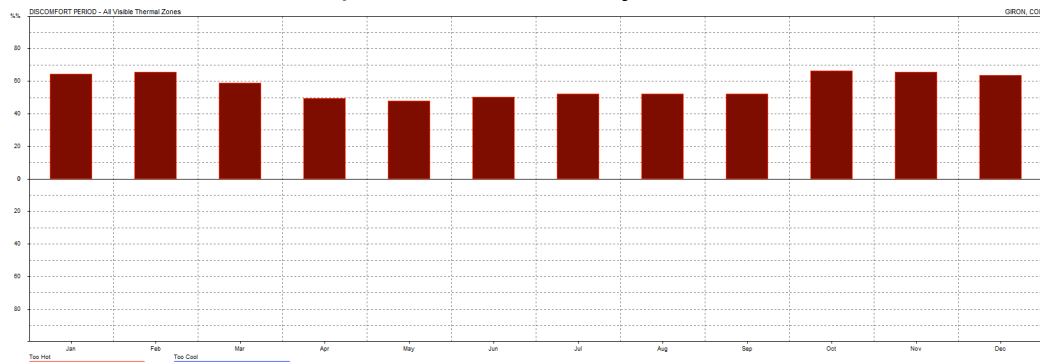

### E1 Bloque de concreto / Teja de barro, tierra y caña brava pañetada

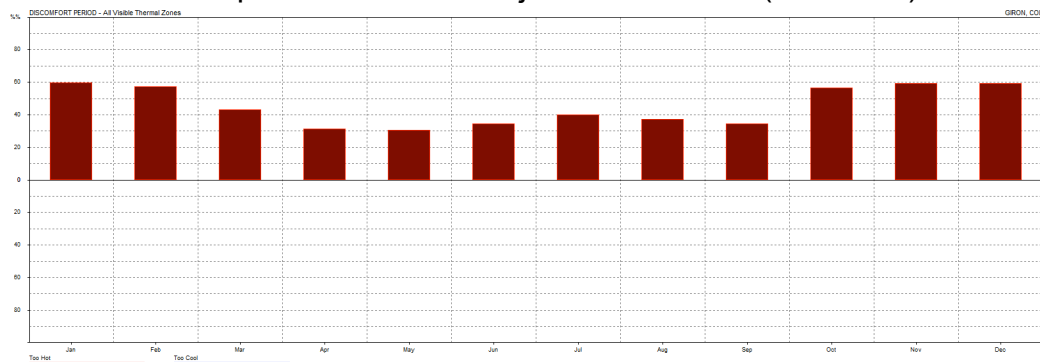

### E2 Bloque de concreto / Teja de barro, mortero y machimbre

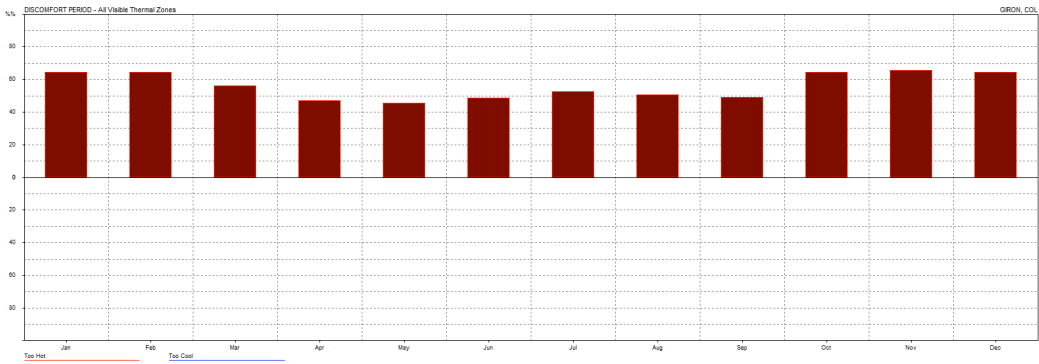

### E3 Bloque de concreto / Teja de asbesto

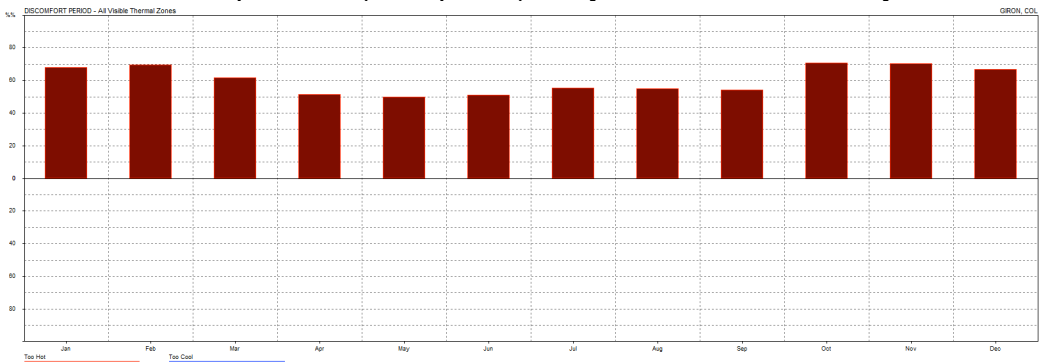

### E4 Bloque de concreto / Teja termoacústica (Estrutech)

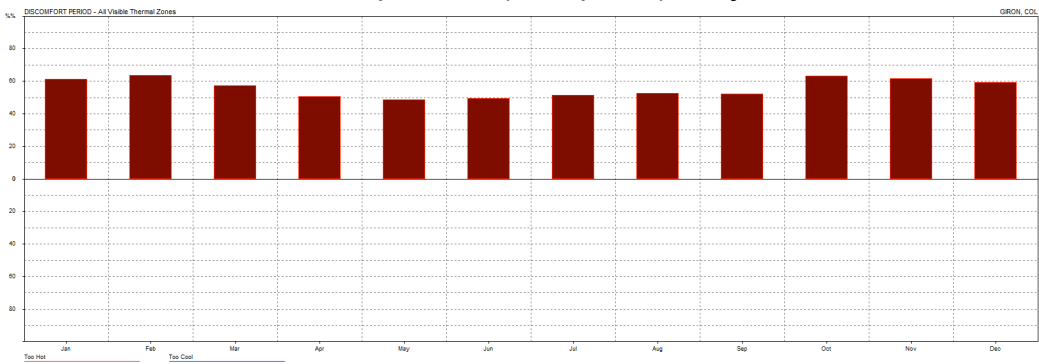

F1 Poliestireno Expandido (Durapanel)/Teja de barro, tierra y caña brava pañetada

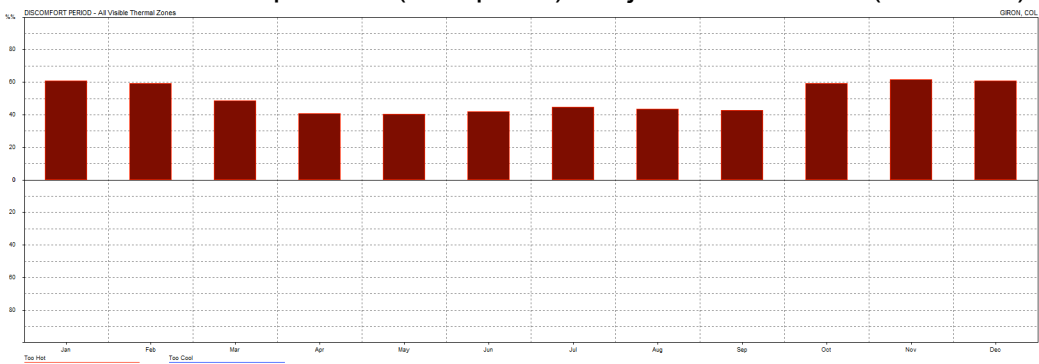

F2 Poliestireno Expandido (Durapanel) / Teja de barro, mortero y machimbre

F3 Poliestireno Expandido (Durapanel) / Teja de asbesto

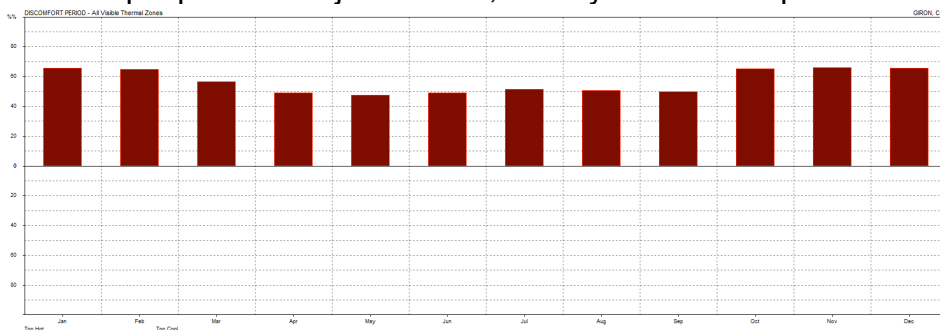

F4 Poliestireno Expandido (Durapanel) / Teja termoacústica (Estrutech)

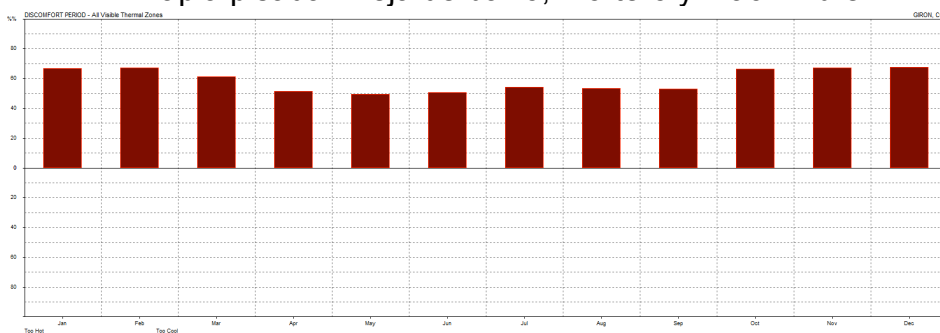

## Anexo AA. Porcentaje de horas de disconfort para combinación de materiales para casa 5

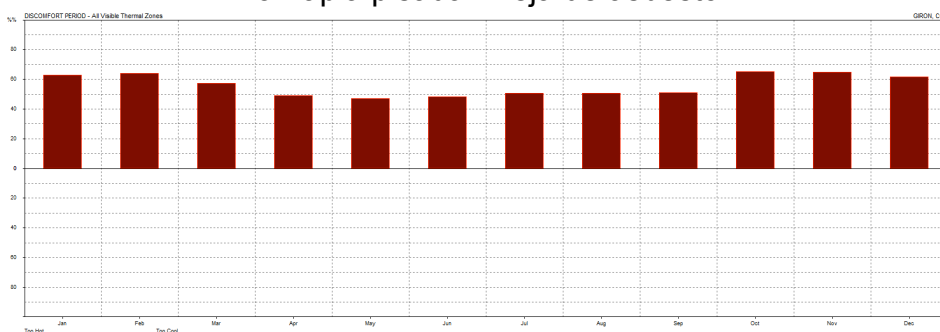

### A1 Tapia pisada / Teja de barro, tierra y caña brava pañetada

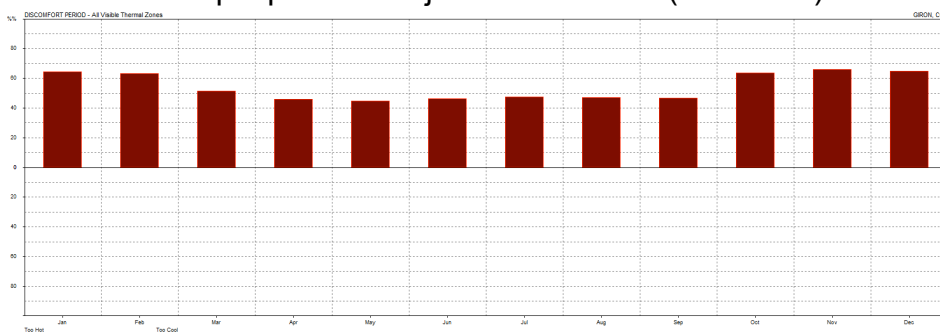

### A2 Tapia pisada / Teja de barro, mortero y machimbre

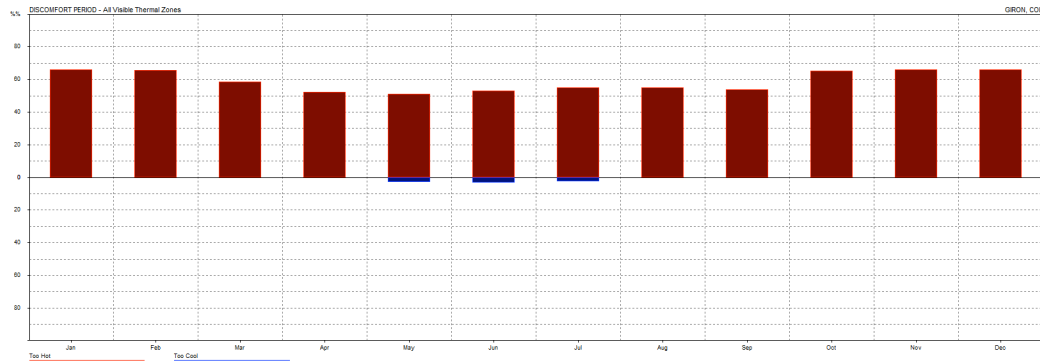

### A3 Tapia pisada / Teja de asbesto

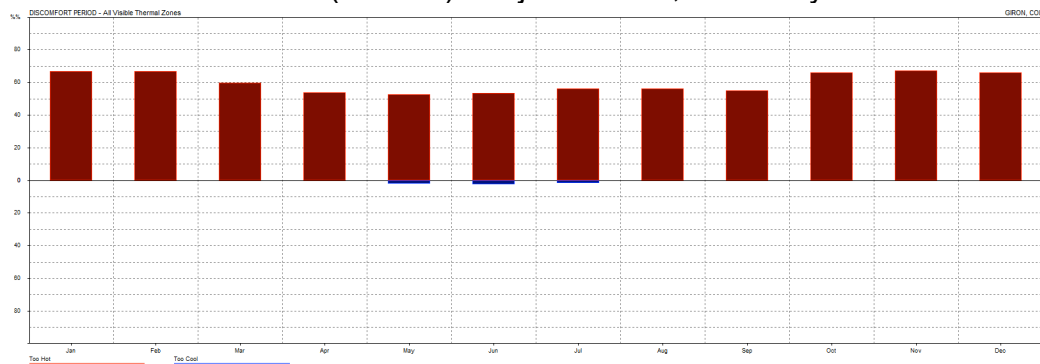

### A4 Tapia pisada / Teja termoacústica (Estrutech)

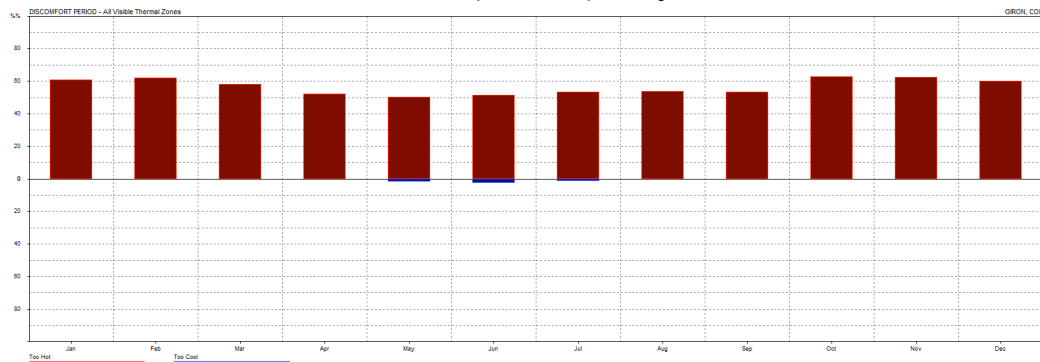

## B1 Ladrillo macizo (temoza) / Teja de barro, tierra y caña brava pañetada

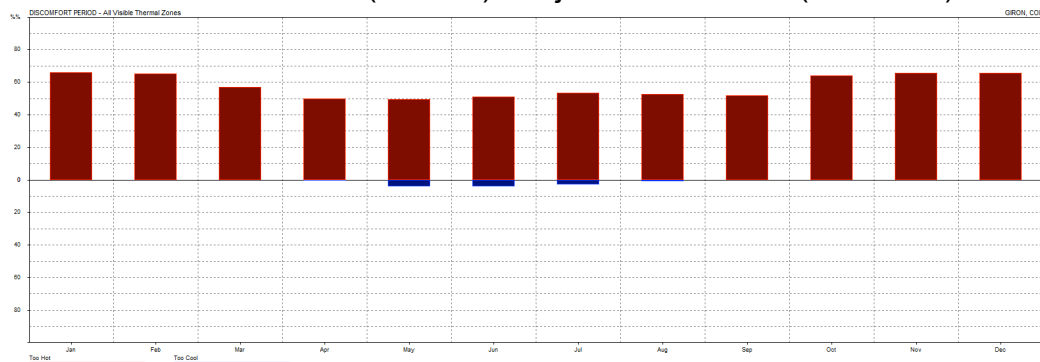

## B2 Ladrillo macizo (temoza) / Teja de barro, mortero y machimbre

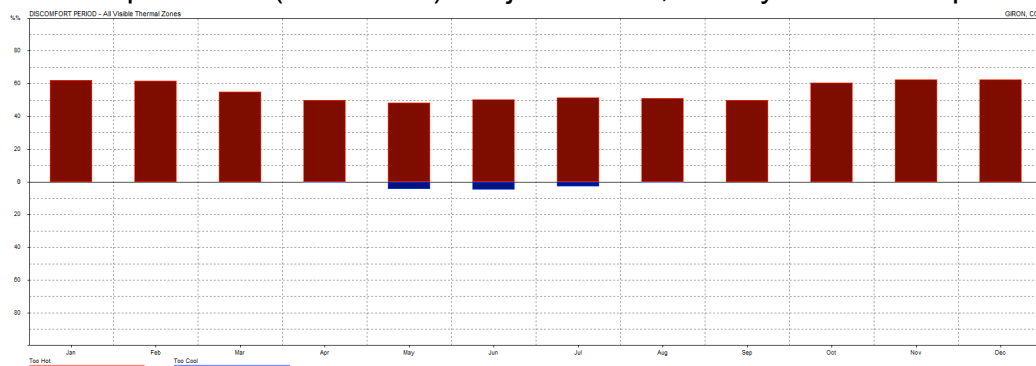

## B3 Ladrillo macizo (temoza) / Teja de asbesto

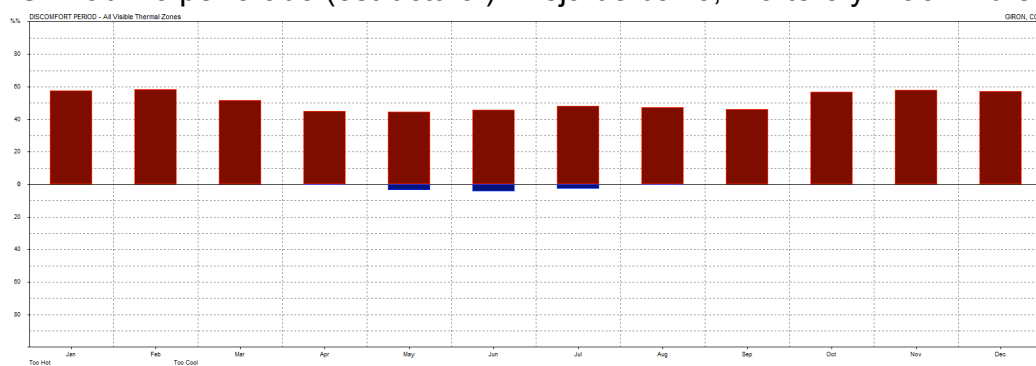

## B4 Ladrillo macizo (temoza) / Teja termoacústica (Estrutech)

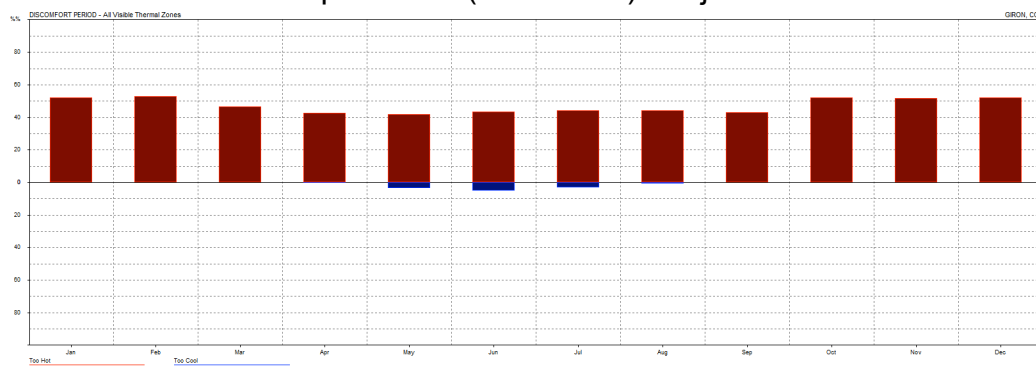

### C1 Ladrillo perforado (estructural) / Teja de barro, tierra y caña brava pañetada

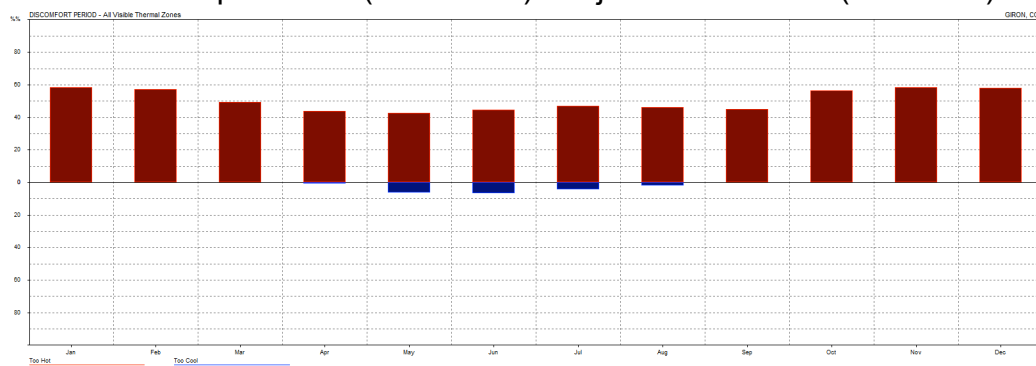

### C2 Ladrillo perforado (estructural) / Teja de barro, mortero y machimbre

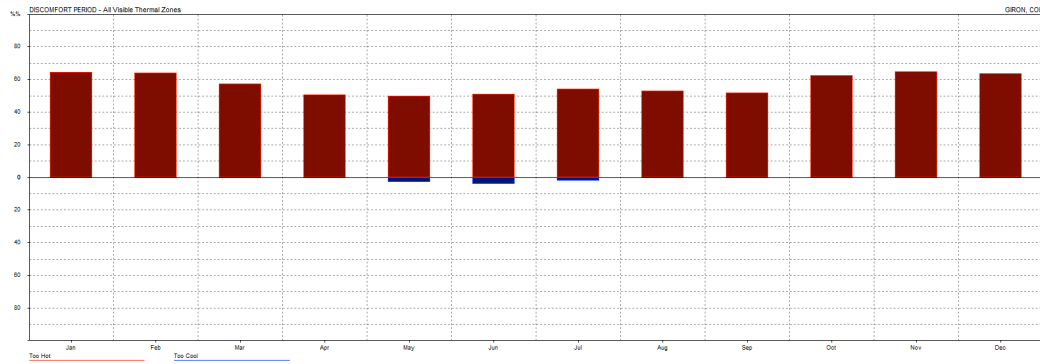

### C3 Ladrillo perforado (estructural) / Teja de asbesto

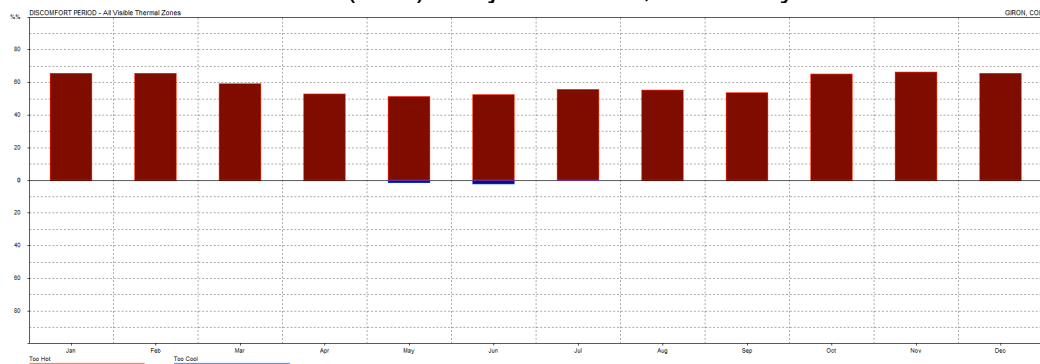

### C4 Ladrillo perforado (estructural) / Teja termoacústica (Estrutech)

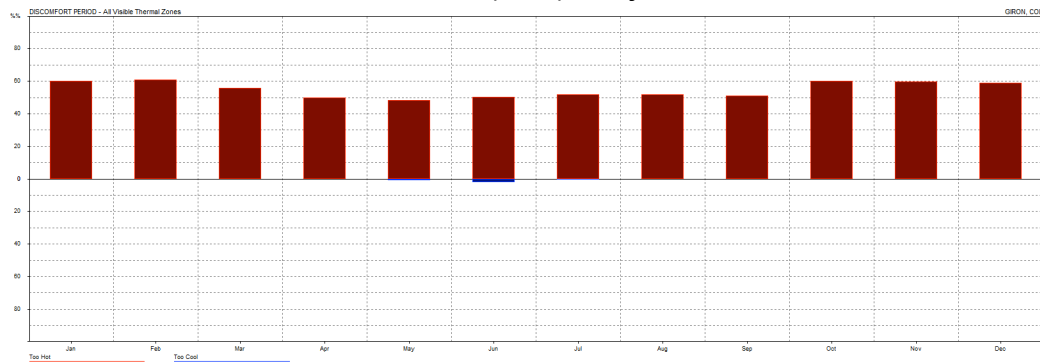

### D1 Ladrillo hueco (H15) / Teja de barro, tierra y caña brava pañetada

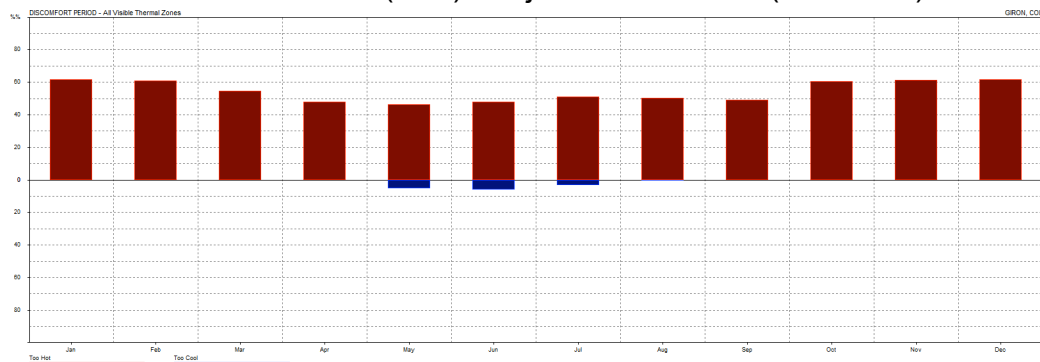

### D2 Ladrillo hueco (H15) / Teja de barro, mortero y machimbre

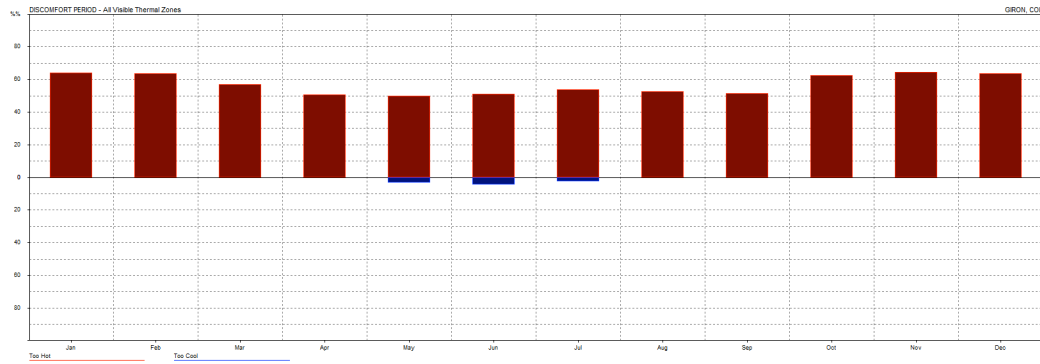

### D3 Ladrillo hueco (H15) / Teja de asbesto

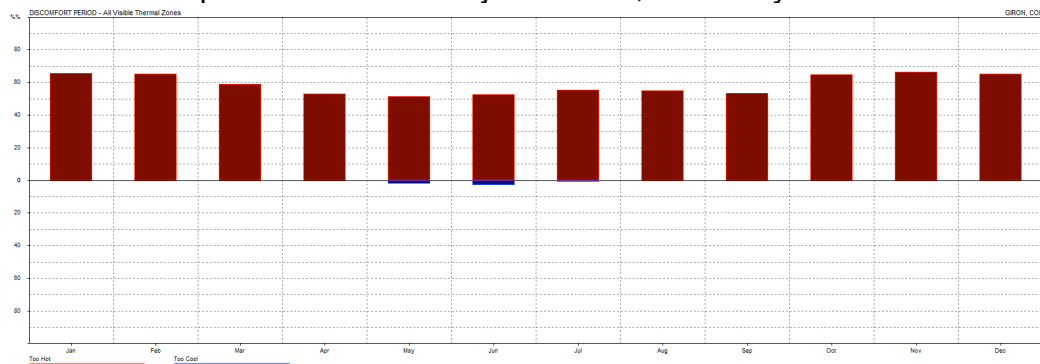

### D4 Ladrillo hueco (H15) / Teja termoacústica (Estrutech)

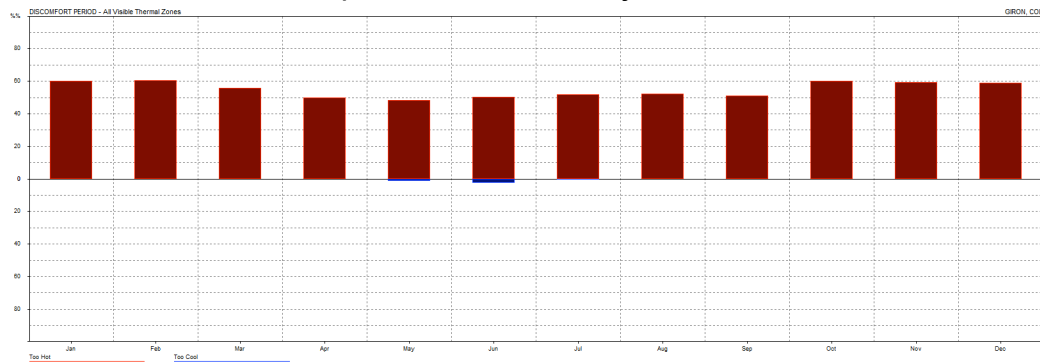

### E1 Bloque de concreto / Teja de barro, tierra y caña brava pañetada

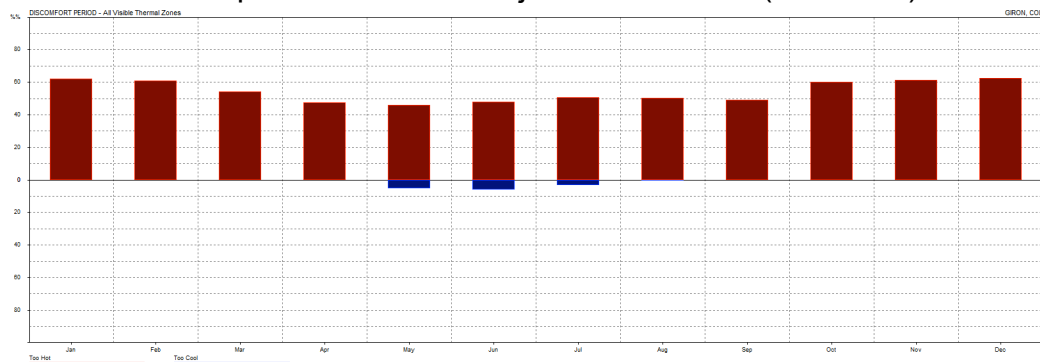

### E2 Bloque de concreto / Teja de barro, mortero y machimbre

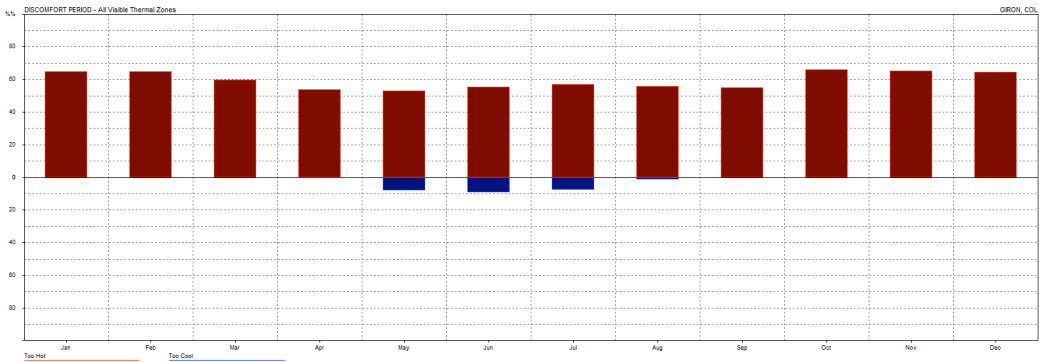

### E3 Bloque de concreto / Teja de asbesto

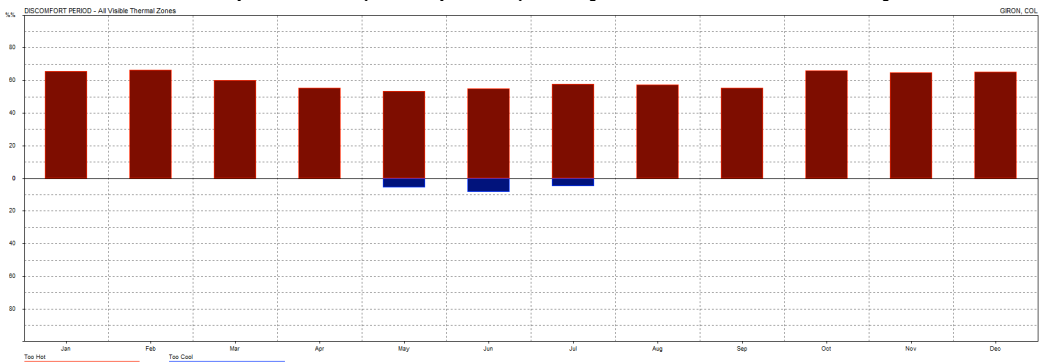

### E4 Bloque de concreto / Teja termoacústica (Estrutech)

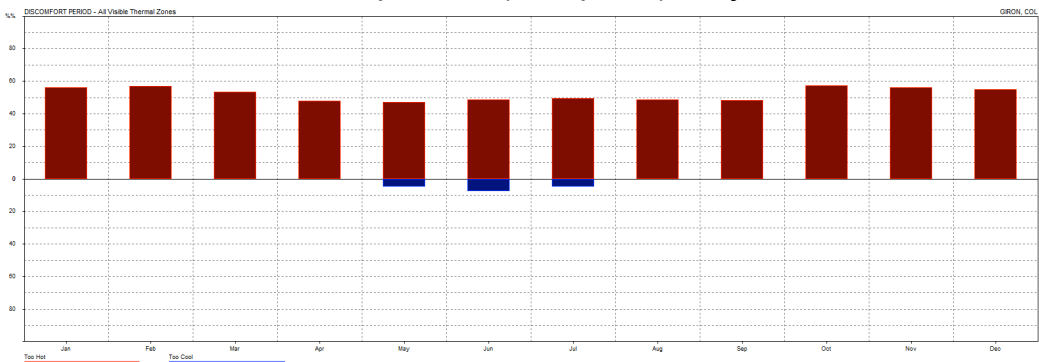

F1 Poliestireno Expandido (Durapanel)/Teja de barro, tierra y caña brava pañetada

F2 Poliestireno Expandido (Durapanel) / Teja de barro, mortero y machimbre

F3 Poliestireno Expandido (Durapanel) / Teja de asbesto

F4 Poliestireno Expandido (Durapanel) / Teja termoacústica (Estrutech)
